Der Hochwald:

Der Hochwald, Etc Adalbert Stifter, 1914 *The Feeling of the Form* Joseph R. Metz, 2025-11-15 *The Feeling of the Form* explores the concept of Einfuehlung the projection of human feelings and life into inanimate forms developed by German aesthetic theorists in the late nineteenth century The word would be translated into English as empathy and migrate in meaning from the aesthetic to the interpersonal sphere Combining close analysis and cultural para history *The Feeling of the Form* reads literary texts by Georg Buechner Adalbert Stifter and Rainer Maria Rilke alongside philosophical texts by Robert Vischer Vernon Lee and Theodor Lipps to uncover the often uncanny intersections of aesthetic and interpersonal empathy Traveling both backward and forward in time from the 1873 invention of Einfuehlung Joseph R Metz traces the diverse and multidirectional exchanges among subjects and objects feelings and forms and selves and others that together yield an expanded understanding of Einfuehlung empathy and the connections between them In its surprising juxtapositions *The Feeling of the Form* also shows how nineteenth and early twentieth century texts prefigure a wide array of later thought including affect theory other minds artificial intelligence object oriented ontology and cinema and video game aesthetics
