Der Junge Heinrich Mann:

Der junge Carnap in historischem Kontext: 1918-1935 / Young Carnap in an Historical Context: 1918-1935 Christian Damböck, Gereon Wolters, 2021-05-12 This open access volume is based on the Early Carnap in Context workshop that took place in Konstanz in 2017 and looks at Rudolf Carnap's philosophy documented in his recently released diaries from a combination of historical cultural and philosophical perspectives It enables further evaluation of the diaries and traces newly found interrelationships and their systematic definition From a cultural and historical point of view Logical Empiricism and Carnap's pivotal opus *The Logical Structure of the World* did not evolve in a vacuum This applies equally in a history of philosophy context as well as under consideration of contemporary historical and cultural influences such as the socio-cultural setting in Vienna and Prague the correlation between Logical Empiricism and Bauhaus modernism the connection to the Life Reform Movement or the Youth Movement with its own life philosophy Pursuing Carnap's progression on a micro level of history and referring the results back to Carnap's philosophy is now facilitated by recent access to his Diaries from 1908-1935 These shorthand records reading lists travel reports and notes constitute a valuable source for the research of networks and social movements which left their mark on him

Antisemitic Elements in the Critique of Capitalism in German Culture, 1850-1933 Matthew Lange, 2007 This volume examines selected works of German literature from Gustav Freytag to Joseph Goebbels in relation to ethical socio-economic and political texts from the economic take-off period in the middle of the nineteenth century up to the rise of National Socialism and investigates two aspects of anti-Semitic anti-capitalistic representations contained therein First it traces how the Jews gained the dubious distinction of being the inventors even embodiment of capitalism and elaborates on negative traits assigned to both of them Second it examines how representations of specifically Jewish capitalists were instrumentalized both to discredit laissez faire and simultaneously to assist in the definition of a specifically German socio-economic ethos

Dilettantism and Its Values Richard Hibbitt, 2017-12-02 The concept of dilettantism has not always been associated with amateurism or superficiality It played a significant role in French and German critical writing from the late eighteenth century until the fin de siècle embracing notions such as apprenticeship fruitful error parody aestheticism and scepticism Attempts to define dilettantism in a binary relationship with art have often been defeated by a fundamental ambivalence towards its values The major texts on the subject are Goethe and Schiller's unfinished dilettantism project 1799 and Paul Bourget's essay on Ernest Renan 1882 although the term was also used by writers including Wieland Baudelaire Laforgue Nietzsche Hofmannsthal and Thomas Mann In this wide-ranging study Richard Hibbitt provides the first book-length comparative analysis of the concept of dilettantism tracing its chronological development and proposing a synthesis of its diverse aspects and values

Heinrich Mann: Mirror and Antagonist of His Time Alexander v. Fenner, 2008-08 The following scientific work about Heinrich Mann is the translation of my examination *Heinrich Mann Die Entwicklung im Fr hwerk vom sozialkritischen zum politischen*

Roman published 2007 in Germany and entitled Heinrich Mann Mirror and antagonist of his time This work describes his early literary life and shows his attitude towards most of the changes in the society during the turn of the century At the same time it demonstrates his change to a democrat and the way how he engrosses his thoughts to become a political author At the beginning of his rise to a literary example for a small group of young writers he was a member and observer of the special period called Fin de siècle Starting as a journalist he learned from French examples like Balzac Bourget and Zola and he was really impressed by the French spirit and styles of literature in the middle of the 19th century Certainly he has been influenced by contemporary literature and authors from Germany But nevertheless he was more focused on the French spirit of this period Heinrich Mann born 1871 brother of the established Thomas Mann was not an important writer In my opinion and in comparison to his brother he was the one who was underestimated in his time Besides his personal development in his work shows why he was just the opposite to Thomas Mann more brilliant than well known for the inexperienced reader of German literature The reason for it may be his attitude to prefer peace more than the other side of the German national mood to overwhelm other nations by hostile tendencies before the First World War His special authorial abilities can be realised in how he describes the political attitudes in his own ironical and sarcastic style In this article the literary work of Heinrich Mann caricatures the German Empire which is presented by means of my comparisons of the three novels Im Schlaraffenland 1900 Professor Unrat 1905 and Die Kleine Stadt 1909 In Europe the turn of the late 19th century to the beginning of the 20th century was referred to this extraordinary term Fin de siècle It demonstrates a mix of emotional sensitive and metaphorical motives named Aestheticism as one part of this literary period At the same time Heinrich Mann was one of those who used these issues and denied them in further literary work while he became more and more political which is reflected in his further life and novels
