Dornier Wal

H. Herrmann

Dornier Wal:

Flying Boats & Seaplanes Stéphane Nicolaou,1998 Beginning with races that were staged at elegant French resorts in the early part of the century flying boats and seaplanes have played an integral part in aviation history World War I spurred the development of these machines and by the 1930s flying boats and seaplanes had become pioneers in transcontinental flight This photo filled history recalls the role of flying boats and seaplanes in civil and military aviation history and the enthusiasm of the engineers and pilots who are associated with their development In addition to the golden years of hydraviation prior to World War II author Nicolaou examines the decline of the seaplane and its subsequent renaissance in nations that are today considered seaplane paradises The saga is illustrated by more than 200 rare photographs uncovered in archives around the globe
