Fascism and History A. James Gregor, 2019-02-27 The term fascism or fascist appears with regularity in academic and lay accounts of past and contemporary politics This volume deals with the term as a concept and traces its evolution over almost a century as it has been employed virtually every place on the globe It has been applied to Xi Jinping's China Vladimir Putin's Russia and to Donald Trump's presidency in the United States Written in a clear style free of unnecessary jargon the account is fully accessible to both professionals and lay persons An Addendum to the text provides social science professionals with a

bibliography that covers virtually all the major works dealing with Fascism as an ideology **The Search for Neofascism**

A. James Gregor, 2006-03-27 Publisher description *Mussolini's Camps* Carlo Capogreco, 2019-11-11 This book which is based on vast archival research and on a variety of primary sources has filled a gap in Italy's historiography on Fascism and in European and world history about concentration camps in our contemporary world. It provides for the first time a survey of the different types of internment practiced by Fascist Italy during the war and a historical map of its concentration camps. Published in Italian *I campi del duce* Turin Einaudi 2004 in Croatian *Mussolinijevi Logori* Zagreb Golden Marketing Tehni ka knjiga 2007 in Slovenian *Fa isti na tabori* a Ljubljana Publicisti no dru tvo ZAK 2011 and now in English *Mussolini's Camps* is both an excellent product of academic research and a narrative easily accessible to readers who are not professional historians. It undermines the myth that concentration camps were established in Italy only after the creation of the Republic of Sal and the Nazi occupation of Italy's northern regions in 1943 and questions the persistent and traditional image of Italians as *brava gente* good people showing how Fascism made extensive use of the camps even in the occupied territories as an instrument of coercion and political control.

[Bibliography On Holocaust Literature](#) Abraham J Edelheit, 2021-11-28 In this second supplement to their *Bibliography on Holocaust Literature* the authors have compiled 4000 new entries to keep pace with the outpouring of literature on the subject. Readers' attention is directed to new materials and to items newly available including books, pamphlets and journal articles many of which are catalogued for the first time. There is a new section on Soviet anti-Semitism and expanded coverage of neo-Nazism, neo-fascism.

*Phoenix* A. James Gregor, 2017-10-23 A great deal of effort has been expended by Anglo-American scholars in an attempt to isolate past and contemporary fascisms: neofascisms, cryptofascisms and latent fascisms in the modern world. A. James Gregor's *Phoenix: Fascism in Our Time* is an insightful history of the intellectual rationale for Benito Mussolini's fascism offered by major Italian intellectuals. The book provides a list of recurrent features that helps to identify the generic phenomenon. This lucid account reviews seriously neglected aspects of intellectual history describing the socioeconomic and political conditions that precipitate and sustain fascism. Gregor shows that Italian fascism was supported by a responsible and credible rationale. His account of that rationale permits us to understand the appeal of fascism as an ideal exercised over elites and masses in the 20th century. Gregor offers a credible list of traits in showing how instances of fascism can be identified when they first appear. The last chapters of the work are devoted to a case study of the newly emergent post-Soviet Russian nationalism and its affinities with historic fascism. Gregor discusses the implications of the rise of generic fascism in the former Soviet Union and post-Maoist China. This timely volume offers an alternative to conventional interpretations of the major historical events of the 20th century. *Phoenix* is a must reading for scholars and policymakers dealing with European history between the two world wars and should be instructive for anyone interested in the fascist ideology in a new millennium.
