Double Exposure Robert Sullivan,2024-04-23 One of The New Yorker s best books of the year so far A Kirkus Reviews Best Nature Book of 2024 Singular Virtuoso Double Exposure is the best book I ve read about America in many many years Corey Seymour Vogue a best book of 2024 Extraordinary A transformative experience for the reader Lucy Sante A large hearted wide angled book I couldn t put it down Ian Frazier A personal exploration of the American West and the work of one of America s greatest photographers Timothy O Sullivan is America s most famous war photographer

You know his work even if you don't know his name. A Harvest of Death taken at Gettysburg is an icon of the Civil War. He was also among the first photographers to elevate what was then a trade to the status of fine art. The images of the American West he made after the war while traveling with the surveys led by Clarence King and George Wheeler display a prescient awareness of what photography would become years later. Ansel Adams would declare his work surrealistic and disturbing. At the same time we know very little about O'Sullivan himself. Nor do we know really know much more about the landscapes he captured. Robert Sullivan's *Double Exposure* sets off in pursuit of these two enigmas. This book documents the author's own road trip across the West in search of the places many long forgotten or paved over that O'Sullivan pictured. It also stages a reckoning with how the changes wrought on the land were already under way in the 1860s and 70s and how these changes were a continuation of the Civil War by other means. Sullivan, known for his probing investigations of place in the pages of *The New Yorker* and books like *Rats* and *My American Revolution* has produced a work that like O'Sullivan's magisterial photos of geysers and hot springs exposes a fissure in the American landscape itself. [Double Exposure, a Novel.](#) Translated from the French by Elizabeth Abbott. Théo Fleischman, 1956. **Double Exposure** Kathy Wierenga Buchanan, Kathy Wierenga, Lissa Halls Johnson, 2005. Sloan, 2024-09-10. Elissa R. Sloan author of *The Unraveling of Cassidy Holmes* returns with a sweeping drama about two A-list stars, a former star couple as they cross each other's paths over and over again through the years in a story that examines the work we have to do in order to grow into the people we want to become. Maiko Fox and Adrian Hightower were young beautiful in love and famous. The latest model to grace the Valentina Posh runway show and the hottest new superhero actor were Hollywood's breakout couple. They were in every magazine, all over the most popular celebrity blogs and on countless E! News stories. They starred in a blockbuster film together reaping box office gold. Fans were at a fever pitch. No one could get enough of Madrian, the couple that printed money for the studios, for the paparazzi for themselves. But then their relationship crumbled. Years later with Adrian topping the Hollywood A-list as a writer and director, dating the country's biggest pop star and Maiko starring in movies for her celebrated producer-director husband, they live totally different lives. But they can never be too far apart. Madrian is still a box office draw and the studios keep throwing them together. As the two grow more and more entangled again professionally, Maiko and Adrian have to reckon with themselves: are they happy with their current lives? Or have they grown to be better people when with each other. **Double Exposure** Elisabeth A. Raleigh, 2001. **DOUBLE EXPOSURE** is a novel concerned with the phenomenon of memory. The story explores such questions as: To what extent does memory and the narratives we construct from it explain who we are? How is memory influenced by others and does it matter if it is? Can a memory that is factually false be emotionally true? Ultimately the novel aims to demonstrate that

the past has its place but only a relative non deterministic place in our present experience because it is subject to constant revision and reinterpretation The story s main focus is a young woman who comes to believe that knowledge of her past in particular the recovery of memories of suspected childhood sexual abuse will lead her to freedom from her emotional distress However the narrative she begins to reconstruct is like a suit of armor insulating but confining more cumbersome as the stakes get higher particularly when she decides to sue her perpetrator her stepfather seeking legal and monetary justice for the damage she has suffered Her legal quest becomes complicated though when other possible versions of her past begin to suggest themselves and she begins to acknowledge that these alternate versions may be as right or real as the one that is the basis for her suit What she knows thereby collapses and her task then shifts from proving who did what to claiming her own power of self determination In the end her dependence on external sources to define her identity i e what the other characters think of her how they treat her gives way to her own sense of self
