**Dowry of Uncommon Women** Jane Metcalf,1988 **Dowry of Uncommon Women** Jane Metcalf,1988-06-01 *An Uncommon Woman* Hannah Pakula,1997-11-13 Biography of Prussian Crown Princess Vicky Queen Victoria's eldest daughter who married Crown Prince Frederick of Prussia and who gave birth to Kaiser Wilhelm II Honour and Disgrace Isabel Pérez Molina,2001 This study analyses the legal condition of women in Catalonia Spain in the early modern ages particularly during the seventeenth and eighteenth centuries by way of the study of primary legal sources The legal discourse was conceived as being different for men and women women were treated as a specific social category were judicially discriminated against and were given inferior legal personality Following the moral discourse of the time jurists classified women as honest and dishonest and tried to establish a physical and legal barrier to divide the good from the bad As a result women were before the law pawns for male decisions However women did not easily comply with the submissive role attributed to them and as civil lawsuits show often they used the law that discriminated them in their own benefit **The Forging of the Cosmic Race** Colin M. MacLachlan,Jaime E. Rodriguez O.,2023-09-01 The Forging of the Cosmic Race challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre-capitalists as some Neo Marxist authors have argued Instead they advance two central themes that only in New Spain did a true mestizo society emerge integrating Indians Europeans Africans and Asians into a unique cultural mix and that colonial Mexico forged a complex balanced and integrated economy that transformed the area into the most important and dynamic part of the Spanish empire The revisionist view is based on a careful examination of all the recent research done on colonial Mexican history The study begins with a discussion of the area's rich pre-Columbian heritage It traces the merging of two great cultural traditions the Mesoamerican and the European which occurred as a consequence of the Spanish conquest The authors analyze the evolution of a new mestizo society through an examination of the colony's institutions economy and social organization The role of women and of the family receive particular attention because they were critical to the development of colonial Mexico The work concludes with an analysis of the 18th century reforms and the process of independence which ended the history of the most successful colony in the Western hemisphere The role of silver mining emerges as a major factor of Mexico's great socio-economic achievement The rich silver mines served as an engine of economic growth that stimulated agricultural expansion pastoral activities commerce and manufacturing The destruction of the silver mines during the wars of Independence was perhaps the most important factor in Mexico's prolonged 19th century economic decline Without the great wealth from silver mining economic recovery proved extremely difficult in the post-independence period These reverses at the end of the colonial epoch are important in understanding why Mexicans came to view the era as a burden to be overcome rather than as a formative period upon which to build a new nation The Forging of the Cosmic Race challenges the widely held notion that Mexico's

colonial period is the source of many of that country's ills. The authors contend that New Spain was neither feudal nor pre-capitalist as some Neo-Marxist authors have argued.

**Coming of Age in Medieval Egypt** Eve Krakowski, 2019-03-19

Much of what we know about life in the medieval Islamic Middle East comes from texts written to impart religious ideals or to chronicle the movements of great men. How did women participate in the societies these texts describe? What about non-Muslims whose own religious traditions descended partly from pre-Islamic late antiquity? *Coming of Age in Medieval Egypt* approaches these questions through Jewish women's adolescence in Fatimid and Ayyubid Egypt and Syria c. 969-1250. Using hundreds of everyday papers preserved in the Cairo Geniza, Eve Krakowski follows the lives of girls from different social classes, rich and poor, secluded and physically mobile as they prepared to marry and become social adults. She argues that the families on whom these girls depended were more varied, fragmented, and fluid than has been thought. Krakowski also suggests a new approach to religious identity in premodern Islamic societies and to the history of rabbinic Judaism. Through the lens of women's coming of age, she demonstrates that even Jews who faithfully observed rabbinic law did not always understand the world in rabbinic terms. By tracing the fault lines between rabbinic legal practice and its practitioners' lives, Krakowski explains how rabbinic Judaism

adapted to the Islamic Middle Ages Coming of Age in Medieval Egypt offers a new way to understand how women took part in premodern Middle Eastern societies and how families and religious law worked in the medieval Islamic world
