Andrew Rathbone,1992 Like DOS Secrets this book explores hidden tricks and tips that increase the effectiveness of a computer However PC Secrets presents information on a much broader scale exploring both hardware and software tricks that will make computing easier and more efficient Includes utility programs keyboard hints and much more **Secrets of the Past** Allen Upward,1909 *Cold War and Decolonization in Guinea, 1946-1958* Elizabeth Schmidt,2007 Winner of the African Politics Conference Group s Best Book Award In September 1958 Guinea claimed its independence rejecting a constitution that would have relegated it to junior partnership in the French Community In all the French empire Guinea was the only territory to vote No Orchestrating the No vote was the Guinean branch of the Rassemblement D mocratique Africain RDA an alliance of political parties with affiliates in French West and Equatorial Africa and the United Nations trusts of Togo and Cameroon Although Guinea s stance vis vis the 1958 constitution has been recognized as unique until now the historical roots of this phenomenon have not been adequately explained Clearly written and free of jargon Cold War and Decolonization in Guinea argues that Guinea s vote for independence was the culmination of a decade long struggle between local militants and political leaders for control of the political agenda Since 1950 when RDA representatives in the French parliament severed their ties to the French Communist Party conservative elements had dominated the RDA In Guinea local cadres had opposed the break Victimized by the administration and sidelined by their own leaders they quietly rebuilt the party from the base Leftist militants their voices muted throughout most of the decade gained preeminence in 1958 when trade unionists students the party s women s and youth wings and other grassroots actors pushed the Guinean RDA to endorse a No vote Thus Guinea s rejection of the proposed constitution in favor of immediate independence was not an isolated aberration Rather it was the outcome of years of political mobilization by activists who despite Cold War repression ultimately pushed the Guinean RDA to the left The

significance of this highly original book based on previously unexamined archival records and oral interviews with grassroots activists extends far beyond its primary subject In illuminating the Guinean case Elizabeth Schmidt helps us understand the dynamics of decolonization and its legacy for postindependence nation building in many parts of the developing world Examining Guinean history from the bottom up Schmidt considers local politics within the larger context of the Cold War making her book suitable for courses in African history and politics diplomatic history and Cold War history **PC World** Greg Harvey,1993 Bestselling author and WordPerfect guru Greg Harvey brings you the ultimate WordPerfect tutorial and reference complete with valuable software containing document templates macros and other handy WordPerfect tools Heavily illustrated and loaded with hundreds of tips and detailed hands on examples that demonstrate how WordPerfect s powerful features can be used to solve real world problems **PC Mag** ,1983-02 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *InfoWorld* ,1992-08-17 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects InfoWorld ,1992-10-19 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Taxe\$ for Dummies\$** Eric Tyson, Eric Tyson, MBA, David J.
