Linkages Between Land Management, Land Degradation, and Poverty in Sub-Saharan Africa Nkonya, Ephraim, Pender, John, Kaizzi, Kayuki C., Kato, Edward, Mugarura, Samuel, Ssali, Henry, Muwonge, James, 2008-01-01 Most African countries strive for both poverty reduction and sustainable land management yet information on the exact relationship between these goals is limited This report seeks to fill the gap by demonstrating a strong linkage between poverty and land management Using Uganda as a case study the authors show that certain policies such as investments in soil and water conservation and agroforestry may simultaneously increase productivity and reduce poverty and land degradation Other strategies including development of rural roads non farm activities and rural finance may reduce poverty without significantly affecting productivity or land management Some policies however will likely involve trade offs among different goals and will need to have their negative impacts minimized Those in government NGOs the private sector or academia who are concerned about sustainably reducing poverty in Sub Saharan Africa will benefit from this analysis of how to pursue these key development goals

Organizational Research David M. Boje, 2018-09-03 Organizational research methods ORM are making an ontological turn by studying the nature of Being becoming and the meaning of existence in the world For example without ontology there is no ground and no theory in Grounded Theory GT This book explores ten ways to develop fourth wave GT

that is grounded and theory 1st wave GT commits inductive fallacy inference 2nd wave GT bandaids it with positivistic content coding 3rd wave GT turns to social constructivism but this leaves out the materiality and ecology of existence The first three waves do not address falsification or verification There is another theme Qualitative research methods is a discipline craft not mere science or something that automated text analysis software can displace Quantitative narrative analysis QDA is one more way to colonize and marginalize indigenous ways of knowing IWOK Without an ontological turn its the death of storytelling predicted by Walter Benjamin and Gertrude Stein predicted The good news is Western Empirical Science is beginning to listen to IWOK Native Science experiential living story method of relations not only to other humans but to other animals plants to living air water and earth in living ecosystem of an enchanted world There is a gap in the qualitative research methodology practices and comprehensive advanced approaches causing a split between practice and theory So called Grounded Theory inductive positivism Organizational Research Storytelling in Action is about how to conduct ten kinds of ontological Research Methods and conduct their interpretative analyses for organization studies in an ethically answerable way It is aimed at people who want a more advanced treatment than available in so called Grounded Theory or automated narrative analysis books

A Thousand Faces Florence Seyler Thompson,George W. Galvin,1915 **Office Executives' Series** American Management Association,1927 **The Presidency of William McKinley** Lewis L. Gould,1980 In this interpretation of the McKinley presidency Lewis L Gould contends that William McKinley was the first modern president Making use of extensive original research in manuscript collections in the United States Great Britain and France Gould argues that during McKinley s four and a half years in the White House the executive office began to resemble the institution as the twentieth century would know it He rejects the erroneous stereotypes that have long obscured McKinley s historical significance McKinley as the compliant agent of Mark Hanna or as an irresolute executive in the Cuban crisis that led to war with Spain He contends that McKinley is an important figure in the history of the United States because of the large contributions he made to the strengthening and broadening of the power of the chief executive While this volume touches on many aspects of McKinley s leadership the core of it relates to the coming of the Spanish American War the president s

conduct of the war itself and the emergence of an American empire from 1898 to 1900 According to Gould the Spanish American War was not the result presidential weakness or of cowardice before public hysteria McKinley sought to persuade Spain to relinquish Cuba peacefully turning to war only when it became apparent that Madrid would never acquiesce During the war McKinley effectively directed the American military effort and the diplomacy that brought territorial acquisitions and peace The process of making peace with Spain involving as it did American annexation of the Philippines and of securing the ratification of the resulting treaty in the Senate underscored McKinley s expansive view of presidential power He functioned as chief diplomat from the sending of senators on the peace commission to the personal supervision of the terms of the negotiation At home he made tours of the West and South in 1898 to lead popular opinion to his position as no president had done before him For the Senate he evidenced a readiness to dispense patronage woo votes with personal persuasion and marshal the resources of the political system behind his treaty Later episodes in McKinley s administration support Gould s thesis In administering Puerto Rico and Cuba and in suppressing an insurrection in the Philippines McKinley relied further on the war power and continued to shape affairs from the White House He sent troops to china during the Boxer Rebellion in 1900 without congressional authorization governed the new possessions through presidential commissions and allowed Capitol Hill only a subsidiary role in the process By 1901 the nation had an empire and a president whose manner and bearing anticipated the imperial executives of six decades later Gould does not argue that McKinley was a great president He maintains instead that what McKinley contributed to the office the examples he offered and the precedents he set make him an important figure in the emergence of the modern presidency in this century

New York Court of Appeals. Records and Briefs. New York (State)., *Studies in the Biological Sciences* ,1918 Diem's Final Failure Philip E. Catton,2002 Catton treats the Diem government on its own terms rather than as an appendage of American policy Focusing on the decade from Dien Bien Phu to Diem s assassination in 1963 he examines the Vietnamese leader s nation building and reform efforts particularly his Strategic Hamlet Program which sought to separate guerrilla insurgents from the peasantry and build grassroots support for his regime Catton s evaluation of the collapse of that program offers fresh insights into both Diem s limitations as a leader and the ideological and organizational weaknesses of his government while his assessment of the evolution of Washington s relations with Saigon provides new insight into America s growing involvement in the Vietnamese civil war
