America's Future Marian Wright Edelman,1994-10-31 The Health and Human Services poverty line for a three person family
in America is 11 800 in annual income One in every five American children is growing up in poverty What does child poverty
mean for the economic and societal future of our country The Children s Defense Fund widely considered the most powerful
force for children in America has assembled expert and ground breaking information on how poverty affects health childhood
deaths low birth weight and injury on the insidious connections between low family income and learning disabilities on links
between poverty abuse and neglect and self esteem and much more *Wasting America s Future* is the crucial citizen s
handbook as we continue the national debate on welfare reform **Library Acquisitions List** Martin P. Catherwood

Army,1995-02 **The Human Cost of a Management Failure** Seth Allcorn,Howell S. Baum,Michael A. Diamond,Howard
F. Stein,1996-03-20 This book presents a unique in depth examination of the effects that the popular approaches to
management organizational change downsizing restructuring and reengineering had on a major American hospital The
Human Cost of a Management Failure shows what can happen when management insists on accomplishing its ends strictly
by the numbers The authors ask why top management so often and with seemingly such a cavalier attitude selects
downsizing and similar methods when research indicates that they are all too often such poor choices Based on a year long
longitudinal study Allcorn Baum Diamond and Stein report on their interviews with 23 senior and mid level hospital
administrators then interpret their findings from a psychoanalytic perspective to make clear that the human side of the
workplace can only be ignored at great risk when change is contemplated and then implemented This is essential reading not
only for corporate management but also for other professionals and academics throughout the social and behavioral sciences
Readers of *The Human Cost of a Management Failure* are oriented to the literature on downsizing restructuring and
reengineering and to the context of the study Case material follows enabling readers to draw their own conclusions with
regard to the nature of the organizational change and its effects upon the hospital s employees and consultants offer their
own viewpoints An update of events at the hospital after the study was conducted is provided along with summaries by each
author of his own interpretation and how he interprets the others views In this way readers will get an unusual opportunity to
evaluate their own viewpoints against those of the psychoanalytically trained researchers and to decide for themselves
whether there are in fact better ways to make an organization economically competitive in the marketplace
