Thrall,2020-01-21 Mystic Moderns examines the responses of three British authors Evelyn Underhill 1875 1941 May Sinclair 1863 1946 and Mary Webb 1881 1927 to the emerging modernity of the long early twentieth century moment encompassing the First World War As they explored divergent but overlapping understandings of what mystical experience might be these authors rejected claims that modernity s celebration of the secular and rational left no place for the mystical rather they countered sensitivity to a greater reality could both establish and validate personal agency and was integral to their identities as modern women Their preoccupations with the dynamism of human connection drew on prevailing ideas of vital energy or life force developed by Arthur Schopenhauer and Henri Bergson in ways that channeled modernity s erotic energy of change By using their fiction to describe new self authenticating forms of mysticism separate from either the prevailing orthodoxy of establishment Christianity or the extreme heterodoxy of their era s enthusiasm for paranormal experimentation they also contributed to the rise of a generic concept of spirituality Mystic Moderns thus offers historical perspective on contemporary claims for self constructed non institutional spiritual experience associated with the claim I m spiritual not religious Working as they did within the shadow of the First World War Underhill Sinclair and Webb were in the end

attempting to determine what might be of authentic value for a modern age marked by ubiquitous death While not themselves utopian authors each was touched by her era s complicated hunger for the best of all possible worlds Their constructions of how an individual should be and act in the midst of modernity thus simultaneously projected visions of what that modernity itself should become Collected Prose Paul Auster,2013-03 Paul Auster s Collected Prose is an essential collection from one of the finest thinkers and stylists in contemporary letters **Complete Poetry and Collected Prose** Walt Whitman,1959 **Warren, Jarrell, and Lowell** Joan Romano Shifflett,2020-06-03 Robert Penn Warren Randall Jarrell and Robert Lowell maintained lifelong well documented friendships with one another often discussing each other s work in private correspondence and published reviews Joan Romano Shifflett s Warren Jarrell and Lowell Collaboration in the Reshaping of American Poetry traces the artistic and personal connections between the three writers Her study uncovers the significance of their parallel literary development and reevaluates dominant views of how American poetry evolved during the mid twentieth century Familiar accounts of literary history most prominently the celebration of Lowell s Life Studies as a revolutionary breakthrough into confessional poetry have obscured the significance of the deep connections that Lowell shared with Warren and Jarrell They all became quite close in the 1930s with the content and style of their early poetry revealing the impact of their mentors John Crowe Ransom and Allen Tate whose aesthetics the three would ultimately modify and transform The three poets achieved professional maturity and success in the 1940s during which time they relied on one another s honest critiques as they experimented with changes in subject matter and modes of expression Shifflett shows that their works of the late 1940s were heavily influenced by Robert Frost This period found Warren Jarrell and Lowell infusing ostensibly simple verse with multifaceted layers of meaning capturing the language of speech in diction and rhythm and striving to raise human experience to a universal level During the 1950s the three poets became public figures producing major works that addressed the nation s postwar need to reconnect with humanity Warren Jarrell and Lowell continued to respond in interlocking ways throughout the 1960s with each writer using innovative stylistic techniques to create a colloquy with readers that directed attention away from superficial matters and toward the important work of self reflection Drawing from biographical materials and correspondence along with detailed readings of many poems Warren Jarrell and Lowell offers a compelling new perspective on the shaping of twentieth century American poetry
