Collection Development and Collection Evaluation Michael R. Gabriel, 1995 Contains approximately 2 000 citations to books periodical articles theses and scholarly papers in English a comprehensive guide to literature useful to all librarians interested in strengthening their collection development operation policies and procedures PUBLIC LIBRARY QUARTERLY

Collection Evaluation in Academic Libraries Karen C. Kohn, 2015 Collection Evaluation in Academic Libraries A Practical Guide for Librarians equips academic collection managers to select and implement a method or several methods of evaluating their library collections *Fundamentals of Collection Development and Management* Peggy Johnson, 2014-03-21 In this sweeping revision of a text that has become an authoritative standard expert instructor and librarian Peggy Johnson addresses the art of controlling and updating library collections whether located locally or accessed remotely Each chapter offers complete coverage of one aspect of collection development and management including numerous suggestions for further reading and narrative case studies exploring the issues **Collection Evaluation in Academic Libraries** Karen C.

Kohn, 2015-06-24 Librarians have long used data to describe their collections Traditional measures have simply been inputs and outputs volumes acquired processed owned or circulated With the growth since the 1990s of cultures of assessment librarians have sought statistics that are evaluative rather than simply descriptive More recently exponentially increasing journal prices and an economic recession have intensified the need to make careful purchasing decisions and to justify these to administrators A methodical evaluation of a library collection can help librarians understand and meet user needs and can help communicate to administrators that the library is a good use of the institution s money Collection Evaluation in Academic Libraries A Practical Guide for Librarians equips collections managers to select and implement a method or several methods of evaluating their library collections It includes sections on four tools for evaluation Comparison to peer institutions Core lists Usage statistics from circulation and ILL Citation analysis Chapters on each of these approaches present the advantages and disadvantages of each method instructions on data collection and analysis with screenshots and suggested action steps after completing the analysis With a unique combination of step by step instructions and discussions of the purpose and role of data this book provides an unusually thorough guide to collection evaluation It will be indispensable for collection development librarians and anyone looking to strengthen the culture of assessment within the library [Guide to the Evaluation of Library Collections](#) Barbara Lockett, American Library Association. Subcommittee on Guidelines for

Collection Development, 1989 This text provides principles and methods for determining if a library collection is fulfilling the stated mission of the library It is a clear introduction to collection evaluation for the novice collection manager and it is also useful as a review and reference for the experienced librarian **Collection Development Policies and Procedures** Bloomsbury Publishing, 1994-12-13 This volume will help you acquire and manage a strong collection for your library even when budgets are being cut Topics covered include purchasing materials formulating selection criteria sharing materials

with other institutions and evaluating and preserving materials This edition by the late Elizabeth Futas begins with the results of the author's survey of academic and public libraries The author then explains how a sharply focused and clearly articulated collections development policy can assist libraries in providing the best possible service in the most cost effective manner These and other ideas practices and policies in this new edition will allow libraries to continue meeting the needs of their particular constituents even in uncertain economic times

Assessing Academic Library Collections for Diversity, Equity, and Inclusion

Karen Kohn, 2025-06-12 This book provides a practical step by step approach to designing and implementing evaluation projects targeting a variety of DEI goals in academic library collections Offering both flexibility and detailed guidance Assessing Academic Library Collections for Diversity Equity and Inclusion begins with a discussion of aspects of diversity that librarians could target in their assessment projects and notes project planning considerations such as defining a scope and timeline It particularly notes how larger academic libraries can narrow the scope of a project to make it feasible Subsequent chapters explain different methods for assessing a collection with many examples throughout Methods include List checking involves comparing the collection to a list of recommended books Metadata searching produces a count of library holdings that contain certain subject headings or use specific call numbers Diversity coding allows staff to create their own categories and assign them to books in a sample All three of these methods can be used to analyze the collection by subject matter It is possible to use diversity coding to examine author identities as well a sensitive endeavor for which this book provides both cautions and guidance A fourth approach focuses on organizational efforts or inputs This method involves tracking and reflecting on the library's progress towards goals the staff have set which could involve a variety of collections related activities including staff development changes to workflows revising policies or increasing outreach The book describes advantages and limitations of the four methods allowing librarians to make an informed choice of which to use It also offers resources for implementing each of these strategies as well as guidance on creating one's own evaluation tools Three chapters by guest authors provide examples of DEI assessment projects from academic libraries A concluding chapter discusses sharing findings and suggests a range of changes libraries can make to their collecting practices
