section to find this title This is a new edition of the highly successful textbook which explores the use of the Roper Logan and
Tierney Model of Nursing in practice It underpins nursing care for patients with a variety of health care problems The main
focus is on nursing adult patients in acute and community based settings Applying the RLT Model in Practice has been
written to enable students and their teachers in both Higher Education and clinical practice to explore the different
dimensions of the model through a variety of case studies and exercises The case studies can be viewed as triggers for
student problem solving skills in using the Model Many of the exercises are aimed at enabling readers to find evidence to
support nursing activities The authors have incorporated an international perspective throughout the text Based on the most
popular model used in general nursing care throughout the worldExplicitly demonstrates how the RLT model can be used to
assess plan deliver and evaluate individualised nursing careApplies the RLT model in the context of today s health services
and links it to clinical governance and the multi disciplinary context of careUses a problem solving approach with extensive
use of exercises and case studiesAttractive two colour design using boxes tables and summariesFully updated throughout in
