Axioms of Descriptive Geometry** A. N. Whitehead,2015-06-25 Excerpt from *The Axioms of Descriptive Geometry* This tract  
is written in connection with the previous tract No 4 of this series on Projective Geometry and with the same general aims In  
that tract after the statement of the axioms the ideas considered were those concerning harmonic ranges projectivity order  
the introduction of coordinates and cross ratio In the present tract after the statement of the axioms the ideas considered are  
those concerning the association of Projective and Descriptive Geometry by means of ideal points point to point  
correspondence congruence distance and metrical geometry It has been my object in both tracts to extend the investigations  
just far enough to assure the reader that the whole of Geometry is really secured by the axioms stated My hopes for a  
comparative freedom from typographical errors are based upon my experience of the excellence of the University Press
