L. Portilla,1971 **Aztec Thought and Culture** Miguel Leon-Portilla,2012-11-28 For at least two millennia before the advent of the Spaniards in 1519 there was a flourishing civilization in central Mexico During that long span of time a cultural evolution took place which saw a high development of the arts and literature the formulation of complex religious doctrines systems of education and diverse political and social organization The rich documentation concerning these people commonly called Aztecs includes in addition to a few codices written before the Conquest thousands of folios in the Nahuatl or Aztec language written by natives after the Conquest Adapting the Latin alphabet which they had been taught by the missionary friars to their native tongue they recorded poems chronicles and traditions The fundamental concepts of ancient Mexico presented and examined in this book have been taken from more than ninety original Aztec documents They concern the origin of the universe and of life conjectures on the mystery of God the possibility of comprehending things beyond the realm of experience life after death and the meaning of education history and art The philosophy of the Nahuatl wise men which probably stemmed from the ancient doctrines and traditions of the Teotihuacans and Toltecs quite often reveals profound intuition and in some instances is remarkably modern This English edition is not a direct translation of the original Spanish but an adaptation and rewriting of the text for the English speaking reader **Aztec Thought and Culture, A Study of the Ancient Nahuatl Mind. Michelle Voss,2016-09-01 Every generation of theologians must respond to its context by rearticulating the central tenets of the faith Interreligious comparison has been integral to this process from the start of the Christian tradition and is especially salient today The emerging field of comparative theology in which close study of another religious tradition yields new questions and categories for theological reflection in the scholar s home tradition embodies the ecumenical spirit of this moment This discipline has the potential to enrich systematic theology and by extension theological education at its foundations The essays in Comparing Faithfully demonstrate that engagement with religious diversity need not be an afterthought in the study of Christian systematic theology rather it can be a way into systematic theological thinking Each section invites students to test theological categories to consider Christian doctrine in relation to specific comparisons and to take up comparative study in their own contexts This resource for pastors and theology students reconsiders five central doctrines of the Christian faith in light of focused interreligious investigations The dialogical format of the book builds conversation about the doctrine of God theodicy humanity Christology and soteriology Its comparative essays span examples from Hindu Buddhist Jewish Muslim Jain and Confucian traditions as well as indigenous Aztec theology and contemporary spiritual but not religious thought to offer exciting new perspectives on Christian doctrine **Aztec** Jane Stevenson Day,1992 A magnificently illustrated guide to the world of the Aztec people illuminates in colorful photographs and writing Aztec culture religion art and activities of everyday life just prior to the Spanish invasion of 1519 Published in cooperation with the Denver Museum of Natural History which is showing an Aztec exhibit from September 1992 through April 1993
