The Philosophy Foundation Provocations David Birch,2014-03-05 This book is ideal for teachers whether they are P4C trained or just experimenting with philosophy It will help teachers to present ideas and stimulate discussions which both accommodate and engage adolescent appetites Are human beings flawed Is murder an act of insanity or just plain thoughtlessness Do we need a soul From the fall of Icarus to the rise of Caesar this practical book draws upon history philosophy and literature to provoke students to think question and wonder Divided into chapters on The World Self Society and Others this resource for secondary school is written to give teachers the means to listen rather than teach and to allow the ideas and thoughts of students to form the centre of the lesson It raises questions on the nature of evil belief in God slavery consumerism utopia the limits of freedom and a whole lot more With a clear introductory outline on its use both in and out of the classroom Provocations also contains tips and advice to help guide teachers to span the curriculum Applicable to History Geography RS Science Art English and Citizenship it offers teachers of all subjects the opportunity to introduce a student centred approach to their lessons There is also an extensive bibliography for those who wish to explore the topics in greater depth Provocations is a set of philosophy sessions designed for secondary school and predicated on the pedagogical methods of The Philosophy Foundation These sessions are mature challenging and provocative using history literature myth and the world today as their basis Each session contains particular pedagogical tips and advice and suggestions as to how they can be effectively delivered

Ripe Musings Lucian Krukowski,2011-09-28 Musings are recollections of memories of dreams of ideas Such recollections are persistent because they remain unresolved whether as concepts about the world or as actions taken or avoided in art life and love My musings are ripe because I have been chewing on them for many years I am an old painter and a somewhat younger philosopher and I remain concerned with how these fit together So my first essay is about my journey through the landscape of such fitting This done I take on some art of our and other times that I revere or dislike Then as I am not a believer in straight paths I go on to muse on how the world was before it began and how it will be after it ends and how we can be who s and whats in places that are not the same I return to art to argue against theories that champion brain over mind and I enlist my artist dog to illustrate my argument My musings end with a broader journey that pits the alternate societies of crooked and straights in their strivings for fulfillment and their needs on occasion to come together
