Keats's Boyish Imagination Richard Marggraf Turley, 2012-12-06 For many readers John Keats's achievement is to have attained a supreme poetic maturity at so young an age Canonical poems of resignation and acceptance such as *To Autumn* are traditionally seen as examples par excellence of this maturity In this highly innovative study however Marggraf Turley examines how for Keats an insistence on boyishness in the midst of apparent mature imagery is the very essence of his political contestation of the literary establishment

The History of Literature in Wei, Jin, Southern and Northern Dynasty Li Shi, The book is the volume of *The History of Literature in Wei Jin Southern and Northern Dynasty* among a series of books of *Deep into China Histories* The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the *Bamboo Annals* 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China's last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population

Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China

The Mature Laurel Adam Czerniawski,1991

Traces the course of Polish poetry from Norwid to the New Wave virtually the whole of this century Polish Heritage

Informative and engaging Composed of three distinctly structured sections The first the most ambitious consists of two essays by Czerniawski that together attempt to provide a background for the rest of the contributions In Part 2 seven English writers comment on a single Polish poem that is particularly meaningful to them These are light but intriguing The third section is composed of ten solid essays in literary criticism by English writers who know Polish poetry only in translation and by emigre Polish writers and scholars The blend of interests and perspectives is particularly effective and fascinating

[Thoreau and the Language of Trees](#) Richard Higgins,2017-04-04

Trees were central to Henry David Thoreau s creativity as a writer his work as a naturalist his thought and his inner life His portraits of them were so perfect it was as if he could see the sap flowing beneath their bark When Thoreau wrote that the poet loves the pine tree as his own shadow in the air he was speaking about himself In short he spoke their language In this original book Richard Higgins explores Thoreau s deep connections to trees his keen perception of them the joy they gave him the poetry he saw in them his philosophical view of them and how they fed his soul His lively essays show that trees were a thread connecting all parts of Thoreau s being heart mind and spirit Included are one hundred excerpts from Thoreau s writings about trees paired with over sixty of the author s photographs Thoreau s words are as vivid now as they were in 1890 when an English naturalist wrote that he was unusually able to to preserve the flashing forest colors in unfading light

Thoreau and the Language of Trees shows that Thoreau with uncanny foresight believed trees were essential to the preservation of the world
