Axel Hutte Fecit:

Axel Hütte, fecit Axel Hütte, 2000 German photographer Axel Hütte has developed in recent years a singular approach to his photographic compositions Hütte's remarkably rich landscapes flora waterfalls and bridges are all depicted with his signature elements each focuses on a single motif of sky water or plant which takes up the entire image its position as sole element suggesting a continuation out of the frame Geometric composition is also a central theme as Hütte finds and represents the lines circles and repetitive shapes that exist in nature The 24 photographs reproduced in Fecit were taken during his travels through Europe South America and Australia and record a remarkable diversity of landscapes They alternate between a poetic peacefulness and a darker edgier ambience but all reflect Hütte's unique approach The title Fecit a Latin word meaning he makes was chosen by Hütte to suggest the artist's role in photography the landscapes he shoots are there but the various compositional elements that lead to the final result are the work of the individual and there are an infinite number of choices for any particular subject *Axel Hütte, fecit*, 2000 **Axel Hutte** Julio Llamazares, Rosa Olivares, 2004 *A Class of Their Own* Maren Polte, 2017-06-22 The pioneer group of the Düsseldorf School The Düsseldorf School has become a household name in the art world for one of the most successful and influential strains of modern photography Coined in the late 1980s the name refers mainly to the pioneer group of students of the late Bernd Becher who in 1976 became the first professor for creative photography at a German arts academy His students included Andreas Gursky Candida Höfer Axel Hütte Thomas Ruff and Thomas Struth all of them today internationally acclaimed artists in their own right Whereas Düsseldorf School initially was used as a handy term for a group of artists with the same university's background it quickly turned into a powerful brand name both in critical and commercial contexts Despite its welcomed impact on the art scene the members of the School felt rather ambiguous about their perception as a group which turned them into stars but simultaneously risked levelling individual profiles and differences What exactly connects and distinguishes them aesthetically is for the first time thoroughly explored in Maren Polte's pioneering study [Munch Revisited](#) Rosemarie E. Pahlke, 2005 In her penetrating new study Naama Rokem observes that prose writing more than poetry drama or other genres came to signify a historic rift that resulted in loss and disenchantment In *Prosaic Conditions* Rokem treats prose as a signifying practice that is a practice that creates meaning During the nineteenth and twentieth centuries prose emerges in competition with other existing practices specifically the practice of performance Using Zionist literature as a test case Rokem examines the ways in which Zionist authors put prose to use both as a concept and as a literary mode Writing prose enables these authors to grapple with historical political and spatial transformations and to understand the interrelatedness of all of these changes [Encyclopedia of Twentieth-Century Photography, 3-Volume Set](#) Lynne Warren, 2005-11-15 The *Encyclopedia of Twentieth Century Photography* explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach

covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included **Axel Hütte, fecit** Axel Hütte,2000 **Encyclopedia of Twentieth-century Photography** Lynne Warren,2006 Publisher description
