expression was coined after the example of Electronic Commerce In spite of being a relatively recent expression e  
Government designates a field of activity that has been with us for several decades and which has attained a high level of  
penetration in many countries<sup>2</sup> What has been observed over the recent years is a shift on the broadness of the e  
Government concept The ideas inside e Governance and e Democracy are to some extent promising big changes in public  
administration The demand now is not only simply delivering a service line It is to deliver complex and new services which  
are all citizen centric Another important demand is related to the improvement of citizen s participation in governmental  
processes and decisions so that the governments transparency and legitimacy are enforced In order to fulfill these new  
demands a lot of research has been done over the recent years see Section 3 but many challenges are still to be faced not
