Concept Of God:

The Concept of God Ronald H. Nash,1983 This book brings together for the general reader the intense and wide ranging discussions now taking place among philosophers on the attributes of God Because of its clear explanations numerous examples brevity and breadth **The Concept of God** can be an important supplemental text to theology classes and philosophy or religion classes Lightning Print On Demand Title

The Concept of 'God' Vinoth,2018-02-02 God the supernatural being the perfect the omnipotent and the omniscient originator and ruler of the universe is the object of worship in almost all religions across the world Usually people understand God through the religions they re born in This way they get to learn how and why their Gods created reality and put them in it But is this the only possible way to understand the entity What if one takes an alternate route to understand God What if one first understands the reality God created the reality that everything and everyone s a part of and then identifies the entity itself Reality includes everything around and inside it and inevitably includes us Understanding the reality requires a metaphysical analysis of life and the universe and metaphysics reaches an incredibly new level if the knowledge of the Western sciences is merged with the everlasting ideas of the Eastern spiritual philosophies With multiple perspectives making the reader constantly inquisitive **The Concept of God** merges the knowledge of science and spirituality to understand the nature of life and reality and then finds out who the all powerful God is

Concept Of The Knowledge Of God Brian Haymes,2016-01-03 The Concept of God, the Origin of the World, and the Image of the Human in the World Religions P. A History of the Concept of God Daniel A. Dombrowski,2016-02-01 Daniel A Dombrowski explores the history of the concept of God from the perspective of neoclassical or process theism His neoclassical approach assuages the current crisis in philosophical theism caught between a defense of classical theism and assertions of religious skepticism Instead the work offers Charles Hartshorne s notion of a God who always evolves quite unlike the allegedly perfect figure of more traditional and increasingly unsatisfactory accounts Dombrowski surveys the classical theists and their roots in ancient Greek philosophy before turning to contributions from the sixteenth through twentieth centuries ultimately discussing twenty three thinkers The key figures in this history are Plato who ironically provided the philosophical basis both for classical and neoclassical concepts and three great figures in process theism Henri Bergson Alfred North Whitehead and Hartshorne The concept of God has a rich past this book argues that it can have a rich future as well

Concept of God in Major Religions Zakir Naik,2009-01-01 There has always been a

question in the minds of people about the existence of God All major religions have believed in one god or another Thus believing in a supreme being that is omnipotent and omniscience is essential to the existence of mankind This book tackles the issue of existence of God from a different perspective including starting off with how different people view God It first categorizes the belief of the major religions into 5 types of religions Then it describes the concept of God for world s several major religions including Hinduism Sikhism Judaism and others The book ends with a detailed analysis of concept of God in Islam and how it perfects the concept of God

The Concept of God Emmanuel Opiah,2005-03-22 This is a research into the concept of God as seen by the three religions that propagate and worship a monotheist God

Concepts of God Keith Ward,1998-04-01 Is there a universal concept of God Do all the great faiths of the world share a vision of the same supreme reality In an attempt to answer these questions Keith Ward considers the doctrine of an ultimate reality within five world religions Hinduism Buddhism Islam Judaism and Christianity He studies closely the works of definitive orthodox writers from each tradition Sankara Ramanuja Asvaghosa Maimonides Al Ghazzali and Aquinas to build up a series of images of God a common core of belief Ward discovers that while the great religious traditions of the world retain their differences there are convergences of thought at the deepest level with a broad similarity of structure in concepts of God He concludes that a recognition of these beliefs as well as encouraging a clearer acceptance of the mystery of the divine might also lead to an increase in understanding and tolerance of other faiths to the enrichment of one s own

The Concept of God Thomas V. Morris,1987 This anthology contains a representative sample of some of the best contemporary philosophical work concerning the traditional Judeo Christian concept of God

Charles Hartshorne's Concept of God S. Sia,2013-03-14 Charles Hartshorne s considerable writings have been influential in contem 1 porary religious and philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original 2 and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject 3 of a number of conferences and gatherings of scholars One of Hartshorne s most notable contributions to contemporary philoso 4 phy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps increase its religious value while yet avoiding the contradictions which seem inseparable from the 5 idea as customarily defined The result of his efforts has been the develop ment of the concept of a dipolar God insofar as contrasting metaphysical predicates e g relative absolute contingent necessary finite infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term 6 process has likewise been used to describe his notion of God

The Concept of God Across Religions Charles C Carl,2025-10-24 THE CONCEPT OF GOD ACROSS RELIGIONS FROM

MONOTHEISM TO POLYTHEISM What does God mean in different faiths The Concept of God Across Religions explores how humanity has understood the divine from the one all powerful Creator of monotheistic traditions to the rich pantheons of gods and goddesses in polytheistic beliefs This book takes readers on a journey through the world s major religions uncovering how each envisions the nature role and presence of the divine in human life Through a clear and comparative approach the book examines how Judaism Christianity and Islam define a singular omnipotent God and how Hinduism ancient Greek and Egyptian faiths and indigenous traditions embrace a diversity of deities representing cosmic principles virtues and forces of nature It also delves into philosophical questions whether God is personal or impersonal transcendent or immanent and how divine unity or plurality shapes moral and cultural systems Readers will also explore the evolution of monotheism and polytheism throughout history the rise of pantheism and deism and how modern thinkers bridge ancient beliefs with contemporary spirituality From the Hebrew YHWH and the Islamic Allah to the Hindu Brahman and the gods of Mount Olympus this book offers a thoughtful overview of how civilizations have envisioned the ultimate reality Perfect for students seekers and anyone curious about comparative religion The Concept of God Across Religions invites readers to reflect on the many ways people across cultures and centuries have sought to understand the divine mystery at the heart of existence

My Idea of God Joseph Fort Newton,1926 **The Color of God** Major J. Jones,1987 **The Evolution of the Idea of God** Grant Allen,2007-04-01 Originally published in 1897 The Evolution of the Idea of God is a study of humans belief in God from primitive tribal religions to what Allen considered the more advanced Christian view The main question explored here is How did we arrive at our knowledge of God Rather than trying to prove or disprove any claims about the divine Allen s method simply traces the psychological processes that led humans to religious belief and further from a belief in polytheism to monotheism Students of religion mythology and human psychology will find this an intriguing work Canadian writer GRANT ALLEN 1848 1899 attended university in the United Kingdom and taught at Queen s College in Jamaica His many published books include mainly scientific books and popular novels and in 1895 he published one of the first Canadian science fiction books *The British Barbarians* *Understanding God's Love* Ronald Greib,1997 Ronald Grieb has undertaken a study of how God is misunderstood and misrepresented showing how false ideas of God neutralize His power and authority and lead people into the worship of false deities of their own manufacture **God in the Modern World** Albert Augustus David,1929 **Understanding God'S Message for Mankind** David Charles Cole,2011-12-16 Why do Christians believe as they do How do we know Jesus was the Messiah What does God expect of us What happens after death Is there really a heaven and a hell Why does God allow evil in the world permitting bad things to happen to good people This collection of essential verses from Scripture and the accompanying commentaries will help answer these and other fundamental questions The sixty six books of the Bible are an integrated message system from God a message to mankind from the creator of all things It is the best selling book of all time yet most copies sit unread This is due in part to the fact that wading through so

many pages of spiritually inspired and purposefully encrypted material can be intimidating This new guide to the Bible offers a solution for those eager to understand God s message and develop a closer relationship with Him It holds a collection of inspirational verses selected from all sixty six books of Scripture cataloged under more than 100 specific subject headings

God in Process Thought S. Sia,2012-12-06 One of the controversial issues which have recently come into prominence among philosophers and theologians is how one should understand the term 1 God It seems that despite the fact that a certain idea of God is assumed by not most people there is a degree of disagreement over the meaning many if of the term God is generally taken to refer to a supreme Being the Creator who is perfect and self existent holy personal and loving This understanding of God corresponds to what many have either been brought up to believe in or have come to accept as the meaning of this word Nevertheless theists appear to be defending a particular idea of God and to be accusing atheists of attacking another one which does not tie in with the theistic interpretation Cardinal Maximos IV for instance is quoted as saying The God the atheists don t believe in is a God I don t believe in either 2 On the other hand atheists have been challenging believers to explain clearly what they mean by God because these critics cannot see how that idea can have any acceptable meaning Furthermore theists themselves seem to be divided over the issue H P Owen in his book *Concepts of Deity* shows quite convincingly that there is a bewildering variety of concepts of God among theists One has only to ask around for confirmation of this observation *Alternative Concepts of God* Andrei Buckareff,Yujin Nagasawa,2016-01-21 The concept of God according to traditional Judeo Christian Islamic theism minimally includes the following theses i There is one God ii God is an omniscient omnipotent and morally perfect agent iii God is the creator ex nihilo of the universe and the sustainer of all that exists and iv God is an immaterial substance that is ontologically distinct from the universe Proponents of alternative concepts of God such as pantheism panentheism religious anti realism developmental theism and religious naturalism exclude at least one of these claims A number of prominent philosophers and scientists have expressed sympathy with alternative concepts of the divine However voices raised in defense of these concepts tend not to be taken seriously in contemporary analytic philosophy of religion This volume aims to shed light on alternative concepts of God and to thoroughly consider their merits and demerits The contributors are leading analytic philosophers of religion including critics of these views as well as sympathizers This is the first contemporary edited collection featuring the work of analytic philosophers of religion covering such a wide range of alternative concepts of God **Books-in-Brief: Anthropomorphic Depictions of God** Zulfiqar Ali Shah,2012-01-01 This monumental study examines issues of anthropomorphism in the three Abrahamic Faiths as viewed through the texts of the Hebrew Bible the New Testament and the Qur an Throughout history Christianity and Judaism have tried to make sense of God While juxtaposing the Islamic position against this the author addresses the Judeo Christian worldview and how each has chosen to framework its encounter with God to what extent this has been the result of actual scripture and to what extent the product of theological debate or church decrees of later centuries and

absorption of Hellenistic philosophy Shah also examines Islam's heavily anti anthropomorphic stance and Islamic theological discourse on Tawhid as well as the Ninety Nine Names of God and what these have meant in relation to Muslim understanding of God and His attributes Describing how these became the touchstone of Muslim discourse with Judaism and Christianity he critiques theological statements and perspectives that came to dilute if not counter strict monotheism As secularism debates whether God is dead the issue of anthropomorphism has become of immense importance The quest for God especially in this day and age is partly one of intellectual longing To Shah anthropomorphic concepts and corporeal depictions of the Divine are perhaps among the leading factors of modern atheism As such he ultimately draws the conclusion that the postmodern longing for God will not be quenched by pre modern anthropomorphic and corporeal concepts of the Divine which have simply brought God down to this cosmos with a precise historical function and a specified location reducing the intellectual and spiritual force of what God is and represents causing the soul to detract from a sense of the sacred and thereby belief in Him
