The Termination of Stay of Aliens Arnold Ackerer, 2008-02. Doctoral Thesis Dissertation from the year 2006 in the subject Law Public Law Administrative Law grade Ausgezeichnet. Hiroshima University Department for Public Law course Ph.D. Studium language English abstract. In this thesis, a comprehensive discussion of the current immigration and deportation systems of both Japan and Austria provides the basis for qualitative and quantitative comparisons. The first section explains the basic methodology, the idea of comparative public law, and respective international regimes that influence the alien law in either or both countries. An overview of the respective organization of the immigration control administration is provided before the last chapter of part two compares the immigration laws of both countries. The quantitative comparison employs, extends, and adjusts the Quantitative Index for the Integration of Immigrants by H. Waldrauch, associated also with the work of Prof. U. Davey. Part three extensively discusses the system of termination of stay in both countries. This also includes the newly introduced 2004 revocation of residence titles, *zairyu shikaku no torikeshi*, and the departure order, *shukukoku meirei*, on the Japanese side, and the new system of residence bans, *Aufenthaltsverbote*, etc. on

the Austrian side 2005 This part also features 1 detailed case law on both systems for Japan particularly in regard to the special residence permit 2 a short explanation of detention facilities and detention related problems 3 a discussion of problems inhe
