*Wassily Kandinsky* Wassily Kandinsky, 2010-06-01 All art students are advised to read *Concerning the Spiritual in Art* a short masterpiece by Wassily Kandinsky This classic best explains the concepts that lead to abstract painting in the modern era Kandinsky recognized the connection between music and painting He also suggested that artists free themselves from the material world so that they can express their inner impulses Thus the abstract painting requires contemplation to reveal its meaning Furthermore the meaning may be a projection of the inner life of the viewer as much as it is the inner life of the artists This concept is not new to music but it certainly was new to painting in 1911 Once considered a radical idea the spiritual aspect of abstract art is now a given in culture Wassily Kandinsky offers some very insightful comments regarding his contemporaries recognizing Matisse as the 20th century master of color and Picasso as the 20th century master of line He faults them both however for not making the final step toward complete abandonment of the physical world In *Concerning the Spiritual in Art* Kandinsky also asserts that imitative painting of other eras was a deadly trap for the artist yet responding to the eternal call of the unconscious forces in an earlier period of art history was a valid area of exploration Kandinsky believed that art progressed that artistic concepts built on each other and that there was a triangle of artistic conception that moved forward to some end point yet to be discovered Kandinsky warns against pattern painting which he thought would lead to monotony and away from spirituality Every artist owes it to themselves to read *Concerning the Spiritual in Art* Though short this book is the classic on which much art history philosophy and practice has been based

*Concerning the Spiritual in Art* Wassily Kandinsky, 2023-05-24 In *Concerning the Spiritual in Art* Wassily Kandinsky a pioneer of abstract art invites you to embark on a profound exploration of the spiritual dimension of artistic expression With his deep understanding of the intersection between art and spirituality Kandinsky uncovers the veiled secrets that lie beneath the surface of every stroke and every hue Through a series of captivating essays Kandinsky delves into the importance of inner necessity spirituality and pure emotion in the creation of art He challenges conventional notions of representation urging artists to abandon the confines of materialism and embrace the metaphysical world Kandinsky argues that the true artist must strive to tap into their innermost being to create works that resonate with the soul Drawing from his own experiences and insights Kandinsky offers invaluable guidance on how to infuse art with spiritual meaning He explores the power of color as a means of emotional expression the significance of form and composition in evoking transcendent experiences and the interplay between the artist the artwork and the viewer With *Concerning the Spiritual in Art* Kandinsky ushers us into a realm where the boundaries of the visible dissolve giving way to a heightened understanding of ourselves and the universe This profound work will ignite your imagination challenging you to explore the limitless possibilities of art

and the transformative power of the spiritual within

**Concerning the Spiritual in Art - Kandinsky Wassily** Kandinsky Wassily,2009-11-22 A passage from the book It is no common thing to find an artist who even if he be willing to try is capable of expressing his aims and ideals with any clearness and moderation Some people will say that any such capacity is a flaw in the perfect artist who should find his expression in line and colour and leave the multitude to grope its way unaided towards comprehension This attitude is a relic of the days when l art pour l art was the latest battle cry when eccentricity of manner and irregularity of life were more important than any talent to the would be artist when every one except oneself was bourgeois The last few years have in some measure removed this absurdity by destroying the old convention that it was middle class to be sane and that between the artist and the outer world yawned a gulf which few could cross Modern artists are beginning to realize their social duties They are the spiritual teachers of the world and for their teaching to have weight it must be comprehensible Any attempt therefore to bring artist and public into sympathy to enable the latter to understand the ideals of the former should be thoroughly welcome and such an attempt is this book of Kandinsky s *Concerning the Spiritual—and the Concrete—in Kandinsky's Art* Lisa Florman,2014-03-26 This book examines the art and writings of Wassily Kandinsky who is widely regarded as one of the first artists to produce non representational paintings Crucial to an understanding of Kandinsky s intentions is *On the Spiritual in Art* the celebrated essay he published in 1911 Where most scholars have taken its repeated references to spirit as signaling quasi religious or mystical concerns Florman argues instead that Kandinsky s primary frame of reference was G W F Hegel s *Aesthetics* in which art had similarly been presented as a vehicle for the developing self consciousness of spirit or Geist in German In addition to close readings of Kandinsky s writings the book also includes a discussion of a 1936 essay on the artist s paintings written by his own nephew philosopher Alexandre Koj ve the foremost Hegel scholar in France at that time It also provides detailed analyses of individual paintings by Kandinsky demonstrating how the development of his oeuvre challenges Hegel s views on modern art yet operates in much the same manner as does Hegel s philosophical system Through the work of a single crucial artist Florman presents a radical new account of why painting turned to abstraction in the early years of the twentieth century

*Concerning the Spiritual in Art* by Wassily Kandinsky About the Author Kandinsky was born in the year 1866 and differently from what people can suppose he wasn't originally a painter In fact in Odessa he went to the university of law and economics Just in a second part of his life he will rediscover the passion for art and colours that he used to have when he was a child The first period of Kandinsky's life and career as a painter will be based on paintings dedicated to the expression of intense and deep thoughts of the artist It is during this period that the artist together with a group of other people will give birth to *Der Blaue Reiter* translated with the blue knight It was a group of artists heart of the German expressionism During his studies as artist and painter Kandinsky will meet a wide variety of sources of inspiration but topics that will most affect his work will be the colour symbolism and the psychology To give fame to Kandinsky or at least to make his fame so great is the fact that to this artist is attributable one of the first abstract works of the modern art During his life the artist will get in touch and become a member of symbolists groups and in particular will be part of the group known as the blue rose which will be or critics think so somehow involved in the creation of the painting *The Blue Mountain* In the painting the use of horses symbolize the battle of the author against traditional art in fact in the same period during which he completed *The Blue Mountain* he also achieved to realize many other paintings about horses and riders actually the amount of these paintings is of at least seven To better understand this artist anyway there are mainly other two elements to know and understand These elements are the artistic movements that inspired and in different periods attracted the artist Of all the possible movements to list two were particularly important to Kandinsky Fauvism and pointillism Fauvism was mainly known in France it wasn't a real and officially known group of artists but they were very close to themes of the impressionism following the experiences made by Van Gogh and Gauguin The use of bright and unnatural colours was the element that attracted Kandinsky For basically the same reason the artist will spend a period close to the other group the group of pointillist artists Where other than the colours use Kandinsky will be interested also to the loss of unitary shapes

Kandinsky, 2023-09-11 Pioneering and Exploring the Spiritual Revolution in Modern Art In the early 20th century the pioneering and celebrated painter Wassily Kandinsky 1866 1944 wrote this groundbreaking work advocating a powerful role for spirituality in driving the creation of modern art Voicing his own strong opinions as well as the philosophical passions of his peers Kandinsky urged traditional artists to break free from the limiting restraints of the material world in their work By faithfully using their own uninhibited thoughts and inner emotions for inspiration essentially channeling the human spirit instead of representing material concerns he believed that artists could transcend the norms of the time to reach new levels of abstract expression and aesthetic beauty Likewise he also challenged the viewing public to admire art with a fierce spiritual hunger With insightful explorations of form and color theory creative inspiration psychology religion music ethics and even politics Kandinsky makes a strong case for his artistic revolution The movement he inspired with his theories played a pivotal role in the development of modern art particularly in the growth and evolution of abstract painting Featuring an enlightening introduction by the book's translator Michael T H Sadler providing generational and cultural context for Kandinsky and his work Concerning the Spiritual in Art gives testimony to the mind and creative expression of Kandinsky and other artists of his generation This seminal and thought provoking book exploring the heart of the artistic endeavor belongs in the library of every serious artist and student of modern art Concerning the Spiritual in Art - The Original Classic Edition, 2012-03-01 Kandinsky spent a lifetime painting in search of the spiritual His body of work was his philosophical opus provoked initially by the prodigious philosophical works of Madame Blavatsky founder of the Theosophical Society in which she introduced the Western world and Kandinsky to Eastern philosophies Kandinsky believed that art had a duty to be spiritual in nature an expression of inner need as he came to call it He called art for art's sake a vain squandering of artistic power This book was both his call to artists to meet their obligation to humanity and his attempt to define and explain color and form in its relation to expressing the message of the soul The 1910s was surely the most exciting radical innovative and genuinely NEW period in the history of all the arts writing music painting cinema dance it was also one of the few periods when creative frenzy was escorted by critical might and is almost as famous for its artistic collectives its isms its iconoclasm and its spectacularly aggressive wipe the slate clean manifestoes as it is for any one artwork produced Today however there aren't many of these manifestoes that possess more than quaint historical value Kandinsky's Concerning the Spiritual in Art is one and probably to our own shame speaks as loudly to us today as it did to the artist's contemporaries A cry against all that is bogus or a dead end in art the bourgeois currying the trend following the excessively materialistic naturalistic or representational art in which formal invention is not matched by emotional power the book demands a return to spirituality in art in an age where a godless faith in science has resulted in a soulless culture Kandinsky is the artist who said that Art was close to religion and his concept of painting is heavily bound up with his Russian orthodox upbringing as well as later exposure to theosophy One does not have to be a card carrying mystic however to recognise the truth of his central argument

that the only art with the power to truly move us is that which is ruthlessly faithful to the artist's inner need not public taste or contemporary styles this belief led Kandinsky towards abstraction he rejected the idea that a painter should draw what was on the surface instead of its inherent spirit or harmony if this led to a cul de sac in 20th century art this is because Kandinsky's mimics lacked his moral drive This book is fascinating as Kandinsky still creating recognisably though distorted representational works was struggling towards the abstract geometry for which he is now famous It is essential for any lover of Kandinsky's work and modern art in general with its revealing analyses of colour and form their psychology and the various effects they can achieve it is a portrait of modernism from the inside and it is goosebumping reading a gifted contemporary passing judgement on Picasso and Matisse although time has parted company with him in his preference for Maeterlinck and Isadora Duncan In his demand for a total art that would unite theatre music and painting he looks forward to the great Ballets Russes happenings most significantly Nijinsky Stravinsky Picasso's The Rite of Spring Throughout he calls for painting to achieve the non-naturalistic liberation of music But behind the passion and certainty is an intellectually playful not always caught by the fusty translation though deadly earnest artist who knows that everything he says is provisional and a guide a record of his own groping striving tireless searching *Buddha Mind in Contemporary Art* Jacquelynn Baas, Mary Jane Jacob, 2004 Eminently readable and extremely meaningful The contributors tackle essential questions about the relationship of art and life The book is also very timely offering a way to approach Buddhism through unexpected channels Lynn Gumpert Director Grey Art Gallery New York University

**Art** Wassily Kandinsky, 2019-11-20 In *Concerning the Spiritual in Art* Wassily Kandinsky articulates a profound philosophical framework for understanding art's essence and its emotional impact. Through a blend of theoretical discourse and artistic manifesto, Kandinsky advocates for the autonomy of color and form, emphasizing their ability to convey spiritual truths transcending the material world. Written in the early 20th century amidst the burgeoning movements of abstraction and expressionism, this seminal work reflects the tension between traditional representational art and the burgeoning demand for abstraction, making a compelling case for the transformative power of non-objective art. Wassily Kandinsky, a pioneer of abstract art, was deeply influenced by the intersections of spirituality, psychology, and visual culture. His background in law and economics belied a lifelong passion for art and music, enabling him to perceive a harmonizing connection between these disciplines. His travels and studies, particularly in Munich and later in Russia, exposed him to diverse artistic philosophies, leading him to champion the idea of art as a vehicle for spiritual expression. This insightful exploration of art's spiritual dimensions is essential reading for artists, art historians, and anyone seeking to deepen their understanding of the role of spirituality in creative expression. Kandinsky's visionary ideas continue to resonate today, inviting readers to appreciate the profound connections between color, form, and emotion.

*Faith in Art* Joseph Masheck, 2023-06-15 Metaphysical thought has been excluded from much of the discourse on modern art, especially abstract painting. By connecting ideas about faith with the initiators of abstract painting, Joseph Masheck reveals how an underlying religiosity informed some of our most important abstract painters. Covering Wassily Kandinsky, Kazimir Malevich, Piet Mondrian, and El Lissitzky, Masheck shows how revealed religion has been an underlying but fundamental determinant of the thinking and practice of abstract painting from its very originators. He contextualizes their art within some of the historical moments of the early 20th century, including the Russian revolution and the Stalinist period, and explores the appeal of certain themes, such as the Passion of Christ. A radical new theorization of the influence of religion over visual art, *Faith in Art* asks why metaphysics has been eliminated from the discussion where it might have something to say. This is a new way of thinking about a hundred years of abstract painting.

*Concerning the Spiritual in Art and Painting in Particular [An Updated Version of the Sadleir Translation]* Wassily Kandinsky, 2014-07-09 2014 Reprint of 1947 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. An updated version of the Sadleir translation with considerable re-translation by Francis Golfing, Michael Harrison, and Ferdinand Ostertag. Published in 1912, Kandinsky's book defines three types of painting: impressions, improvisations, and compositions. While impressions are based on an external reality that serves as a starting point, improvisations and compositions depict images emergent from the unconscious, though composition is developed from a more formal point of view. Kandinsky compares the spiritual life of humanity to a pyramid; the artist has a mission to lead others to the pinnacle with his work. The point of the pyramid is occupied by few great artists. It is a spiritual pyramid, advancing and ascending slowly, even if it sometimes appears immobile. During decadent periods, the soul sinks to the bottom of the pyramid.
