## Condors Egg:

*Condor's Egg* Jonathan London, 1999-02-01 Two of the last California condors living in the wild hatch an egg Oology and Ralph's Talking Eggs Carrol L. Henderson, 2009-02-17 Before modern binoculars and cameras made it possible to observe birds closely in the wild many people collected eggs as a way of learning about birds Serious collectors called their avocation oology and kept meticulous records for each set of eggs the bird's name the species reference number the quantity of eggs in the clutch the date and location where the eggs were collected and the collector's name These documented egg collections which typically date from the nineteenth and early twentieth centuries now provide an important baseline from which to measure changes in the numbers distribution and nesting patterns of many species of birds In Oology and Ralph's Talking Eggs Carrol L Henderson uses the vast egg collection of Ralph Handsaker an Iowa farmer as the starting point for a fascinating account of oology and its role in the origins of modern birdwatching scientific ornithology and bird conservation in North America Henderson describes Handsaker's and other oologists collecting activities which included not only gathering bird eggs in the wild but also trading and purchasing eggs from collectors around the world Henderson then spotlights sixty of the nearly five hundred bird species represented in the Handsaker collection using them to tell the story of how birds such as the Snowy Egret Greater Prairie Chicken Atlantic Puffin and Wood Duck have fared over the past hundred years or so since their eggs were gathered Photos of the eggs and historical drawings and photos of the birds illustrate each species account Henderson also links these bird histories to major milestones in bird conservation and bird protection laws in North America from 1875 to the present **California Condor**, 1998 **The Condor**, 1908 The Oölogist's Record, 1930 **Endangered Species Technical Bulletin**, 1985 **Condors in Canyon Country** Sophie A. H. Osborn, 2007 Ten thousand years ago the California condor's shadowraced across the rock faces of canyon walls throughout the Southwest but over time the majestic condor disappeared from this land seemingly forever Last seen in northern Arizona in 1924 the California condor was on the brink of extinction In the early 1980s scientists documented only twenty two condors remaining in the wild all in California Thanks to a successful captive breeding program their numbers have increased dramatically and dozens now fly free over northern Arizona and southern Utah Sophie A H Osborn's groundbreaking book *Condors in Canyon Country* tells the tragic but ultimately triumphant story of the condors of the Grand Canyon region A natural storyteller Osborn has written an in depth highly personal narrative that brings you along as the author and other condor biologists struggle to ensure the survival of the species The book's kaleidoscopic photographs of these huge birds flying free over the Southwest are nearly as breathtaking as seeing California condors live The only book of its kind *Condors in Canyon Country* is a must read for anyone passionate about endangered species and what humankind can do to save them **Fisheries and Wildlife Research and Development**, 1983 Report on activities in the divisions of research and development **The Oologists' Record**, 1921 **California Condors** Meish Goldish, 2009-01-01 Was it too late to save the California condor

For thousands of years these amazing birds soared above North America Yet by the mid 1900s hunting and contaminated food supplies had pushed condors to the brink of extinction Could scientists and wildlife officials find a way to help the California condor survive In California Condors Saved by Captive Breeding children relive the inspiring and heroic efforts of people who stepped in to save this remarkable creature when all seemed lost Through this true tale of wildlife survival kids discover the bold and creative ideas that Americans and their government have used to protect and care for the country s endangered wildlife Scientific American ,1908 Bulletin of the Cooper Ornithological Club ,1899 *Liberty* ,1926 **The Nidologist** ,1893 **The Nidiologist** ,1893 California Condors Patricia Miller-Schroeder,Susan Ring,2003-08 Describes the life environment and habits of California condors and the conditions that threaten them with extinction *Our Paper* ,1919 The National Geographic Magazine ,1923 Indexes kept up to date with supplements *American Pheasant and Waterfowl Society Magazine* American Pheasant and Waterfowl Society,1981 **Illustrated Canadian Forest and Outdoors** ,1926
