Improvement Of Soviet Economic Planning:

Improvement of Soviet Economic Planning Oleg Mukhovich 'Un', 1988 The Future of the Soviet Economic Planning System (Routledge Revivals) David A. Dyker, 2013-09-27 On its publication in 1985 this book offered a fresh analysis of the problems faced by the Soviet economy by focussing on the key issues in the economic planning system David Dyker considers the available options for reform during the 1980s and the most likely developments Discussing the origins of the Soviet economic planning system and the theories which founded it previous attempts to reform the organisational structure and the particular problem of agriculture Dyker presents a picture of an increasingly bleak future for the Soviet economy This is a comprehensive title written by a renowned expert on the Soviet economy which will be of particular value to students and academics researching the political and economic development and history of the Soviet Union **Planning Reforms in the Soviet Union, 1962-1966** Eugène Zaleski, 1967 Study of economic administration and economic planning reform in the USSR during the period from 1962 to 1966 examines administrative aspects and recent administrative changes in the structure of public enterprises and describes the government and political party apparatus involved in planning and recent efforts in regard to decentralization References **The Development of the Soviet Economic System** Alexander Baykov, 1947 Study of the development of the collective economy system in the USSR with particular reference to economic planning experience during the period from 1917 to 1939 covers economic policy economic development extensive industrialization rural cooperative and state farms labour force problems the marketing of consumer goods reconstruction of the trade network changes in the economic structure national budgeting etc Bibliography pp 480 to 495 and statistical tables **The Development of the Soviet Economy** Vladimir G. Treml, Robert Farrell, 1968 **Studies in Soviet Economic Planning** Aron Katšenelinboigen, 1978 *The Soviet Economy* Abram Bergson, Herbert S. Levine, 2023-06-14 The Soviet Economy 1983 examines the long term prospective growth of the USSR s economy It looks at the Soviet economy s growth process at an advanced stage of development and assesses how it would evolve in the period ahead Various growth plans had made large advances to the state planned economy but by the 1980s this growth had slowed Soviet Union Theodore E. Kyriak, 1963 **Revival: Economic Planning in Soviet Russia (1935)** F. A Hayek, Boris Brutzkus, 2018-12-20 The ideas set forth in these pages matured in the authors mind during the early years of constructive communism in Petrograd The communist government intoxicated by its successes in the counter revolution had promised to deal promptly with all economic problems now that its hands were free to do so It was at this moment of its greatest triumphs that the author put forward his contention that the system of Marxian communism as then conceived was intrinsically unsound and must inevitably break down Soviet Union , 1964 **The Soviet Economic System** Olimpiad S. Ioffe, Peter B Maggs, Olimpiad S Ioffe, 2019-07-11 A comprehensive analysis of the Soviet economy from a legal perspective this book discusses the Soviet theory of legal regulation of economic activity and the formal structure of economic legislation The authors argue that two

contradictory tendencies characterize the Soviet economic regulatory system reform and retreat from reform Legal reform efforts usually result from the attempt to increase economic efficiency which typically involves according greater independence to lower level economic organizations The danger that political power might be undermined however eventually leads to the reestablishment of the dominance of the central authorities over lower level decisionmaking Drs Ioffe and Maggs also examine the tensions in labor law which must reconcile the needs of the economy for job mobility and high worker morale with administrative ideals of strict discipline and the legal aspects of technology transfer In addition emphasis is placed on the ways that economic legislation is developed and applied in practice the authors note in particular the progress that has been made in systemization and codification of economic legislation *Social Economic Planning in the Union of Soviet Socialist Republics* World Social Economic Congress,1931 *Soviet Strategy for Economic Growth* Nicolas Spulber,1964 Analysis of soviet writings on national planning and other economic questions during the crucial debates of the 1920 s *Soviet economy in a time of change* United States. Congress. Joint Economic Committee,1979 **Social Economic Planning in the Union of Soviet Socialist Republics** V. Ossinsky,1931 *Fundamentals of National Economic Planning in the USSR* N. S. Koval',Boris Panteleimonovich Miroshnichenko,1972 *Soviet Life* ,1977

Economic Systems in Action Alfred Richard Oxenfeldt,1952 **Quantity Planning and Price Planning in the Soviet Union** Hans Hirsch,2016-11-11 Karl Scholz s translation of the study *Mengenplanung und Preisplanung in der Sovijunion* by Hans Hirsch reproduces the provocative thesis of the author in concise lucid English The need for such a book is made dear in Hans Hirsch s introduction The question of economic accounting under socialism has attracted much interest for a long time This is primarily due to its key position in the controversy over the economic order However if understood correctly it is just as important to pure economic theory Here lies the best opportunity first to examine price theory statements and to perceive how far price theory has either general validity or is merely applicable to particular historical phenomena and secondly to separate out the items that are not determined by the logic of the theoretical system but by the incidental peculiarities of the empirical economy to which the theory is related Hans Hirsch s treatise deals with the Soviet experience and difficulties The treatise also shows the methods of economic guidance employed in Russia by considering the following significant theoretical economic series of topics the principles determine quantities of product and the direction of their use the distribution of authority and influence between higher and lower guiding agencies the role of prices in the guiding process and finally the operating forces and viewpoints in setting prices In the presentation the conflict between the system of material planning which forms the basis and the effects of the financial means of guidance especially of prices becomes clearly visible This gives occasion to attempt a theoretical interpretation of the material guidance system as such and in its relationship to a financial guidance system In so doing the author expresses views as to the basic compatibility of material and financial guidance methods contrary to hitherto prevailing doctrine The knowledge thus acquired will serve as renewed

stimulus to further development of the theory of economic planning
