Moral Knowledge and Ethical Character Robert Audi, 1997-09-25 This book presents an ethical theory that uniquely integrates naturalistic and rationalistic elements Robert Audi develops his theory in four areas moral epistemology the metaphysics of ethics moral psychology and the foundations of ethics Comprising both new and published work the book sets forth a moderate intuitionism clarifies the relation between reason and motivation constructs a theory of intrinsic value and its place in moral obligation and presents a sophisticated account of moral justification The concluding chapter articulates a new normative framework built from both Kantian and intuitionist elements Connecting ethics in novel ways to both the theory of value and the philosophy of action the essays explore topics such as ethical intuition reason and judgement and virtue Audi also considers major views in the history of ethics including those of Aristotle Hume Kant Mill Moore and W D Ross and engages contemporary work on autonomy responsibility objectivity reasons and other issues Clear and conceptually rich this book makes vital reading for students and scholars of ethics

Intelligent Agents VII. Agent Theories Architectures and Languages Cristiano Castelfranchi, Yves Lesperance, 2003-07-31 Intelligent agents are one of the most important developments in computer science of the past decade Agents are of interest in many important application areas ranging from human computer interaction to industrial process control The ATAL workshop series aims to bring together researchers interested in the core micro aspects of agent technology Specifically ATAL addresses issues such as theories of agency software architectures for intelligent agents methodologies and programming languages for realizing agents and software tools for applying and evaluating agent systems One of the strengths of the ATAL workshop series is its emphasis on the synergies between theories languages architectures infrastructures methodologies and formal methods This year's workshop continued the ATAL trend of attracting a large number of high quality submissions In more detail 71 papers were submitted to the ATAL 2000 workshop from 21 countries After stringent reviewing 22 papers were accepted for publication and appear in these proceedings As with previous workshops in the series we chose to emphasize what we perceive as an important new theme in agent research This year's themes were both associated with the fact that the technology of intelligent agents and multi agent systems is beginning to migrate from research labs to software engineering centers As agents are deployed in applications such as electronic commerce and start to take over responsibilities for their human users techniques for controlling their autonomy become crucial As well the availability of tools that facilitate the design and implementation of agent systems becomes an important

factor in how rapidly the technology will achieve widespread use

Liberty, Games and Contracts Malcolm Murray, 2016-05-06 Jan Narveson is one of the most significant contemporary defenders of the libertarian political position Unlike other libertarians who typically defend their view with reference to natural rights or an appeal to utilitarianism Narveson's main contribution has been to offer a philosophical defence of libertarianism based on a Hobbesian individualist contractarian ethic Critiques of Narveson's contractarian libertarianism fall into three categories those that reject contractarian moral theory those that reject any link between contractarianism and libertarianism and those that accuse libertarians of conflating liberty with property In this book Malcolm Murray brings together the most significant of Narveson's critics and presents their work alongside replies by Jan Narveson

Moral Knowledge and Ethical Character Robert Audi Professor of Philosophy University of Nebraska, 1997-08-28 This book offers a unified collection of published and unpublished papers by Robert Audi a renowned defender of the rationalist position in ethics Taken together the essays present a vigorous broadly based argument in moral epistemology and a related account of reasons for action and their bearing on moral justification and moral character Part I details Audi's compelling moral epistemology while Part II offers a unique vision of ethical concepts and an account of moral explanation as well as a powerful model of moral realism Part III extends this account of moral explanation to moral responsibility for both actions and character and to the relation between virtue and the actions that express it Part IV elaborates a theory of reasons for action that locates them in relation to three of their traditionally major sources desire moral judgment and value Clear and illuminating Audi's introduction outlines and interconnects the self contained but cumulatively arranged essays It also places them in relation to classical and contemporary literature and directs readers to large segments of thematically connected material spread throughout the book Audi ends with a powerfully synthetic final essay

Free Will Michael McKenna, Derk Pereboom, 2016-07-01 As an advanced introduction to the challenging topic of free will this book is designed for upper level undergraduates interested in a comprehensive first stop into the field's issues and debates It is written by two of the leading participants in those debates a compatibilist on the issue of free will and determinism Michael McKenna and an incompatibilist Derk Pereboom These two authors achieve an admirable objectivity and clarity while still illuminating the field's complexity and key advances Each chapter is structured to work as one week's primary reading in a course on free will while more advanced courses can dip into the annotated further readings suggested at the end of each chapter A comprehensive bibliography as well as detailed subject and author indexes are included at the back of the book
