Time, Narrative & the Fixed Image / Temps, narration & image fixe ,2021-10-18 This volume focuses on the relationship between time narrative and the fixed image As such it highlights renewed interest in the temporality of the fixed image probably one of the most important trends in the formal and semiotic analysis of visual media in the past decade The various essays discuss paintings the illustrated covers of books comics or graphic novels photo stories postcards television and video art as well as aesthetic practices that defy categorization such as Chris Marker s masterpiece La Jet e The range of works and practices examined is reflected in the different theoretical approaches and methods used with an emphasis on semiology and narratology and to a lesser extent aesthetics and psychoanalysis The interest of this book however does not stem exclusively from the range and scope of the artefacts examined or the methodological issues that are addressed its fundamental importance rests in the contributors readiness to question the differentiation between fixed and moving images which all too often provides a convenient if not altogether convincing starting point for image analysis The originality and value of the contribution that Time Narrative and the Fixed Image Temps Narration et image fixe makes to the body of theoretical writing on visual media lies in this challenging and comprehensive approach
