Avenging Spirit

Debi Chestnut

Avenging Spirit:

California Studies in Classical Antiquity , Spirits and Power Hubert Bucher,1980 This book is about Shona cosmology The author suggests that for the full impact of Christianity to be enjoyed by African peoples there must be a confrontation between Christianity and the fundamental features of traditional cosmologies The first five chapters of the book undertake to expose power as the root concept of the traditional religion of the Shona in Zimbabwe The various spirits upon whose actions the Shona believe that their life and well being depend are seen as symbolic representations or conceptualizations of those manifestations of power which are looming large in their daily lives In the rest of the book the author shows that this traditional conceptualization of spirits plays a central role also in the Shona Churches of the Spirit which form an important branch among Independent Churches in Zimbabwe Something Wicked Debi

Chestnut,2016-07-08 Face to Face Confrontations with Pure Evil Forget what you know or think you know about the malicious entities that lurk in our world just waiting for an opportunity to strike Unless you re one of the few who have encountered a demon it s almost impossible to grasp the depth and scope of their destructiveness Join Debi Chestnut as she shares the true stories of her own life threatening encounters with the darkest entities known to man Something Wicked is not just a book it s a warning In the world of malevolent beings knowledge and faith are your only sources of strength Discover what demonic creatures do how they behave how they infest and possess and how to get help before it s too late

Youth Icarbord Tshabangu,Aluko Opeyemi Idowu,2025-09-02 While much of the Global North has experienced relative peace

after World War 2 the same cannot be said about the Global South where there have been numerous political and military conflicts. Out of these forms of violence other subsequent forms of deprivation and state repression have resulted causing further spinoffs and inducing more forms of violence impacting children and youth in homes, schools, street life and in war zones as refugees and child soldiers. This book provides informative perspectives on violence impacting children and youth examining trends, dynamics and experiences of violence in the Global South's varied settings. It enables policymakers to develop useful strategies to protect children and youth since the future of every society lies in the quality of life given to its children and youth. The book will be of great value to educators, social workers, scholars and researchers in violence-related areas of practice.

Shona Women in Zimbabwe--A Purchased People? John Chitakure, 2016-09-29. The position and treatment of women in every religion, culture and society have been subjects of concern for a long time. In every society women fight for their emancipation from exploitive and oppressive patriarchal structures. The most contentious issues include domestic violence, gender discrimination and inequality in the areas of employment, leadership and marriage. Domestic violence tops the list and is the worst enemy of any progressive and democratic society. It dehumanizes, disfigures and demeans its victims and survivors. *Shona Women in Zimbabwe a Purchased People* explores the causes of domestic violence, the cultural practice of bridewealth in particular and assesses the extent to which it contributes to the proliferation of domestic violence among the Shona people of Zimbabwe. It then explores the Christian traditions, particularly the Roman Catholic Church, in search of resources that can be used to emancipate Shona women from patriarchal subjugation. Finally, the book offers a pastoral response that is informed by the experiences of the Shona women, their cultural resources and the Roman Catholic religious tradition.

African Traditional Religion Encounters Christianity John Chitakure, 2017-11-07. Right from the beginning of humankind, God has never deprived a people of his grace and revelation. In fact, God uses people's environment and culture to communicate his will. There is no single religion that can claim to have the exclusive possession of God's revelation for God is too immense to be confined within one faith. Hence, it was erroneous, blasphemous and misleading for some of the early Christian missionaries to Africa to claim that they had brought God to Africa, a mentality that implied the non-existence of God in Africa before their arrival. Of course, God was already in Africa, but the missionaries either failed to discern his presence or just disregarded the traces of his existence. This book explores the religious beliefs, practices and values of the indigenous people of Africa at the time of the early missionaries' arrival, with particular reference to the Shona people of Zimbabwe. It also evaluates the extent of the missionaries' successes and challenges in converting Africans to Christianity. It finally surveys how African Christians have remained attached to the indigenous religious beliefs that used to provide answers to their existential questions.
