Azul Cobalto:

Tratado de pintura. Color, pigmentos y ensayo Antoni Palet, Antoni Palet Casas, 2002-07-05 Este tratado es de obra empezada y no acabada no pudiendo hallarse nunca el fin teórico o práctico En el texto se describe un breve paseo por los procedimientos y técnicas pictóricas abordando con más profundidad pero sin cansar lo que vendrá a llamarse tema central esto es historia elaboración e identificación sencilla de pigmentos artísticos Materiales y técnicas del arte Ralph Mayer, 2005-03-21 **Colour and colour naming: crosslinguistic approaches** João Paulo Silvestre, Esperança Cardeira, Alina Villalva, 2016-09-01 The Colour and Colour Naming conference held in 2015 at the University of Lisbon offered a chance to explore colour naming processes from a cross linguistic approach The conference was an initiative of the working group Lexicography And Lexicology from a Pan European Perspective itself part of the COST action European Network of Lexicography The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage The proceedings gather together a selection of studies originally presented at the conference The first section of the volume outlines a Pan European perspective of colour names the second section is devoted to the categorisation and lexicographic description of colour terms The Nineteenth Century and After, 1922 Dictionary of the Printing and Allied Industries F.J.M. Wijnekus, E.F.P.H. Wijnekus, 2013-10-22 The first edition of this dictionary compiled by F J M Wijnekus and published in 1967 was the result of years of systematic collection and preparation of thousands of terms and expressions which were until then not to be found in any other dictionary The material was correlated for use in his daily work and as the reputation of his private collection spread there was an increasing demand for access to these findings Until 1967 there was no comprehensive multilingual dictionary on the subject former publications were incomplete and out of date and lacked clear definition often leading to disastrous misunderstandings Furthermore the subject of printing paper and ink technology had never been dealt with in dictionary form in relation to other aspects of the graphic industry This new work prepared by F J M Wijnekus and his son has been considerably updated Much time has been devoted to checking the material against the most reliable and authoritative sources The usefulness of the work has been further enhanced by the addition of Spanish and Italian to the original languages of English French and German The first edition was received with much enthusiastic praise and this new dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the widest sense It is a reference work which should be in the hands of all those in any way connected with the printing industry paper manufacturers ink manufacturers printers bookbinders publishers lithographers layout men and graphical research institutes Diccionario Akal del Color Juan Carlos Sanz, Rosa Gallego, 2001-07-03 Completa introducción al mundo del color y su empleo en todos los medios artísticos y artesanales En ella se abordan desde cuestiones relacionadas con su naturaleza y efectos psicológicos hasta su aplicación en
