*B. H. Newdigate, Scholar-printer, 1869-1944* Joseph Thorp, 1950      Bibliography and Modern Book Production Percy Freer, 2024-08-01 Bibliography and Modern Book Production is a fascinating historic journey through the fields of print history librarianship and publishing It covers key developments from 1494 to 1949 in bibliography and book production from the history of scripts and paper manufacture to the origins of typefaces and printing Although not a textbook the book was a guide for library students in the 1950s on the essential literature of librarianship As the first librarian appointed to Wits University in 1929 Percy Freer s near encyclopaedic knowledge of the subject of bibliography enabled him to develop a key resource for relevant library examinations in South Africa and abroad Due to its immense value as a historic record and to acknowledge Freer s contributions as scholar librarian and publisher it is being reissued as part of the Wits University Press Re Presents series to make it accessible to scholars in book histories publishing studies and information science      **British Wood-engraved Book Illustration, 1904-1940** Joanna Selborne, 1998 Twentieth century British wood engraved book illustration up to the beginning of the Second World War was among the most versatile and inventive of the graphic arts In a climate of typographical renaissance various wood engravers made a significant impact on the appearance of the printed page transforming good books into works of art and influencing modern standards of book production This book reveals the methods by which these pioneering artists broke with nineteenth century illustrative practices The author surveys the subject in relation to the cultural and historical background and within the context of mainstream developments in the visual arts placing emphasis on the working relationship of illustrators with both private presses and commercial publishers Detailed study of unpublished material including art school records publishers and print societies archives and artists correspondence throws new light on the work and practices of the more innovative wood engravers      **The Kelmscott Press** William S. Peterson, 1991-01-01 From a quantitative point of view the achievement of the Kelmscott Press may not seem impressive between 1891 and 1898 it produced fifty two books and a set of specimen pages for another book Yet each was remarkably beautiful Designed by William Morris printed on hand presses ornamented with initials and borders by Morris and illustrated often by Edward Burne Jones these few Kelmscott Press books are famous everywhere today Why they have so profoundly affected twentieth century theories of book design and what cultural significance the founding of the Kelmscott Press played are some of the questions the author considers      **Dictionary Catalog of the Rare Book Division** New York Public Library.
