Conceiving Cosmopolitanism Theory Context And Practice:

Conceiving Cosmopolitanism Steven Vertovec, Robin Cohen, 2003 Understanding the ancient and long sidelined concept of cosmopolitanism has suddenly found a fresh impetus and urgency Globalization international migration multiculturalism and global social movements as well as atrocities committed by those with narrow religious and ethnic identities have led to reposing of two basic cosmopolitan questions Can we ever live peacefully with one another What do we share collectively as human beings The term cosmopolitanism has attracted many understandings and uses over the years Covering the global national social and personal levels of analysis the authors consider the multiple meanings of the term in the past and in the present and develop new ways of conceiving cosmopolitanism Through challenging old assumptions and advancing new analytical frameworks the collection provides a full and representative set of views on the nature definition and prospects of cosmopolitanism Written by eminent scholars and publicly recognised intellectuals from a variety of cultural backgrounds this book is the most comprehensive account of the theory and practice of cosmopolitanism yet attempted Routledge Handbook of Cosmopolitanism Studies Gerard Delanty, 2012 This book reflects the broad reception of cosmopolitan thought in a variety of disciplines and across international borders **The Ashgate Research Companion to Cosmopolitanism** Dr Maria Rovisco, Prof Dr Magdalena Nowicka, 2013-01-28 The study of Cosmopolitanism has been transformed in the last 20 years and the subject itself has become highly discussed across the social sciences and the humanities The Ashgate Research Companion to Cosmopolitanism pursues distinct theoretical orientations and empirical analyses bringing together mainstream discussions with the newest thinking and developments on the main themes debates and controversies surrounding the subject **After Taste. Critique of insufficient reason** Slavko Kacunko, 2021-06-02 After Taste is an inquiry into a field of study dedicated to the reconsideration reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a variety of collected facts from readings and experiences which materialize in the following features One concept figurative Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and actual are presented in three volumes As such the study presents a salient comprehensive companion for wider readership of humanities approaching conceptions of Taste for the first time Moreover After Taste is intended for anyone who hopes to make a further contribution to the subject Since its appearance and apparently short triumph some 250 years ago the concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making The critical role of Taste judges ratings and rankings in the

feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today However Taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic North of the academic compass After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts Three intertwined research hypotheses form the guiding goal of an overall study of the agencies of Taste its institutionalizations and expert cultures The 1 first part provides a missing systematic perspective on the concept of Taste as a key factor for understanding the human faculties value theories and practices of valuating The 2 second part traces the events at the peak of Taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of Taste for the production reception and distribution of culture The 3 third part reconstructs the major moments in which the contested concept of Taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world

The Ashgate Research Companion to Cosmopolitanism Maria Rovisco, Magdalena Nowicka, 2016-04-01 The study of Cosmopolitanism has been transformed in the last 20 years and the subject itself has become highly discussed across the social sciences and the humanities The Ashgate Research Companion to Cosmopolitanism pursues distinct theoretical orientations and empirical analyses bringing together mainstream discussions with the newest thinking and developments on the main themes debates and controversies surrounding the subject The contributions are grouped into three parts each reflecting a different analytical focus within a variety of intellectual disciplines and methodological approaches Part I Cultural Cosmopolitanism is primarily concerned with the empirically grounded aspects of cosmopolitanism which are apparent in mundane practices and lifestyle options on the micro scale of daily interactions It focuses on the outlooks and lived experience of ordinary individuals and groups in concrete situational contexts and social structures Part II Political Cosmopolitanism sets out the main topics and issues dealt with by scholars writing within the tradition of political cosmopolitanism Addressing timely issues such as human rights global justice and global democracy it focuses on Cosmopolitanism as an ethico political ideal and a political project to devise new forms of supranational and transnational governance Part III Debates reflects the major debates and controversies on the subject and deliberately eschews any bland consensus to instead foreground the key arguments and lively intellectual discussions in play across disciplinary divisions Featuring contributions from key thinkers in the field including Ulrich Beck David Held and Martha Nussbaum this
