Concepts of Qabalah William G. Gray,1984-01 **The Key To It All** Guru Sri Shukla,2013-10-16 What is enlightenment What is the nature of the soul Much confusion exists around these subjects and practicality is all too often obscured by ill defined complex theory When I decided to create this course I wanted to avoid these shortcomings so often found in religious teachings To this end impracticality and dogma have been minimized as much as possible Since the subject of these lessons is the nature of the soul and how to care for it I first had to be specific about how I am characterizing the soul In Lesson One I show how throughout the history of religion the life energy body and the mind have been considered two aspects of the soul Once this is established it is a relatively easy process to determine how to care for the soul since religious teachers have taught for centuries how to care for the life energy body in systems such as Ayurveda and Traditional Chinese Medicine while advances in modern psychology have great practical application in caring for the mind

The Quantum Gods Jeff Love,2000-09 Beneath the facade of the ego beyond the ability of the mind to conceive of it yet within reach of everyone through direct personal experience there is a God like Self the authentic I AM or the Quantum God or Goddess From the perspective of a Quantum God life is a co created reality made of consciousness and a special condition of consciousness called matter Matter is the medium being is the message You and I are the Quantum Gods The book features A profusely illustrated introduction to the classical Kabbalah and its Tree of Life The Creative Law a practical seven step process of creative visualization It was discovered by applying Kabbalistic principles to decipher the code hidden in the first book of the Old Testament mistakenly entitled Genesis It is how the Quantum Gods co create reality Psychometaphysics a radical metaphysical model of reality in the form of a commentary on Kabbalah which relates the scientific view of the world to personal experience The Enlightenment Intensive a method of self inquiry discovered in 1968 It is a Zen like method utilizing both contemplation and communication to discover first hand the true nature of Self and Life from one s own direct personal experience
