Concepts Of Comparative Politics:

Comparative Politics Howard J. Wiarda, 2005 *Introducing Comparative Politics* Stephen Orvis, Carol Ann Drogus, 2017-11-30 For *Introducing Comparative Politics The Essentials* the driving force is the pluralist objective stance on introducing students to core concepts in Comparative Politics Authors Stephen Orvis and Carol Ann Drogus introduce key comparative questions while providing equal strengths and weaknesses of commonly debated theories structures and beliefs that push students beyond memorization of country profiles and ever changing statistics and generate in class debate over key concepts used in the science of comparative politics While detailed case studies can go in depth on specific countries and political systems *Introducing Comparative Politics The Essentials* distills its country material into paragraph long examples woven seamlessly into the narrative of the text increasing diverse global awareness current event literacy and critical thinking skills

Introducing Comparative Politics Carol Ann Drogus, Stephen Orvis, 2011-07-21 Uncomfortable with a strictly thematic approach or tired of a purely country by country organization for your comparative politics course Teach the way you want to teach with this innovative hybrid book fully accessible to students easy to teach and satisfying to professors who want to give students a real sense of the questions that drive research in the field Organized thematically around important concepts in comparative politics Who rules What explains political behavior Where and why the book integrates a set of extended case studies in eleven core countries Serving as consistent geographic touchstones the cases are set in chapters where they make the most sense substantively not separated from theory or in a separate volume and vividly illustrate issues in cross national context Features include Core country case studies Brazil China Germany Japan India Iran Nigeria Russia the UK the U S and new to this edition Mexico NEW Methods in Context boxes that model how comparativists do their research and analysis In Context fact boxes that put eye opening data into thematic context Where and Why boxes that explore why certain political outcomes occur in some countries but not in others Country and Concept tables that display key indicators for core countries Updates and revisions include recent elections around the world and the effects of the global financial crisis and its aftermath authoritarian versus totalitarian regimes ethnic violence racial politics and identity economic globalization executive legislative institutions and the role of civil society in government

The Concepts of Comparative Politics Martin Needler, 1991-01-30 This text contains an analysis of the key concepts hypotheses and models of comparative politics The work of key theorists is examined Concepts include revolution dictatorship political development legitimacy and others The author formulates ways in which the key concept can be made clearer the hypothesis can be modified to give it more explanatory power or the model refined so that it approximates empirical reality more closely Political ideology is presented as a particular descriptive understanding of the world together with a prescription for desirable political outcomes In politics the danger comes from too much ideological thinking or from too little *The Concepts of Comparative Politics* is analytical yet also empirical It focuses on the premise that one must have a unifying vision an

integrated view of the world which otherwise becomes a chaos of unintelligible events Yet possession of that world view should not be carried to the point of limiting one's ability to perceive factual situations correctly This work is invaluable as a text for Introduction to Comparative Politics and as a supplement for any course in comparative politics

Cases and Concepts in Comparative Politics O'Neil, Patrick H., Fields, Karl J., Share, Don, 2017-11-01 Based on O Neil Fields and Share's market leading textbook and casebook *Cases and Concepts in Comparative Politics An Integrated Approach* integrates concepts and cases in one volume Students get all of the materials in a straightforward easy to use and cost effective way

Issues and Methods in Comparative Politics Todd Landman, 2003 Explores the importance of comparative politics discusses different comparative methods investigates the big issues of today and looks forward to the key challenges for comparative politics over the next century

Cases and Concepts in Comparative Politics Patrick O'Neil, Karl Fields, Don Share, 2025-10-22

Comparative Politics: An Introduction Joseph Klesner, Professor Mr., 2013-10-01 *Comparative Politics A Global Introduction* shows new students of world politics how the methods and concepts of comparative politics can lead them to ask critical questions to better understand the complex world around them The majority of undergraduates in introductory comparative politics courses do not plan to pursue graduate education in political science nor embark upon careers as political scientists Most hope to take part in public and perhaps international affairs as elected officials civil servants or engaged citizens As such they will need to make countless decisions about public policy including foreign policy throughout their careers *Comparative Politics A Global Introduction* equips students to make better more informed decisions Central to that task are three important goals 1 to introduce readers to the conceptual foundations of comparative politics 2 to enhance their analytical and critical thinking skills through an introduction to basic empirical techniques of political and social science and 3 to promote their understanding of a wide range of countries and political leaders

Cases and Concepts in Comparative Politics: An Integrated Approach (First International Student Edition) Patrick H. O'Neil, Karl Fields, Donald Share, 2018

Concepts and Issues in Comparative Politics Frank Lee Wilson, 1996 Thematic text focusing on major issues and theories of comparative politics rather than specific countries The emphasis is on comparison as a tool for social science research for use in understanding broader trends in world politics

Introduction to Comparative Politics Howard J. Wiarda, 2000

Cases and Concepts in Comparative Politics Patrick H. O'Neil, Karl J. Fields, Donald Share, 2017-11 Based on O Neil Fields and Share's market leading textbook and casebook *Cases and Concepts in Comparative Politics An Integrated Approach* integrates concepts and cases in one volume Students get all of the materials in a straightforward easy to use and cost effective way Every conceptual chapter of the text adds robust examples from cases and connects them with just learned concepts The authors also integrate 13

minicases all drawn from O Neil Fields and Share s 1 selling casebook Cases in Comparative Politics These cases have been abridged to focus students on key concepts and thus foster better comparison between countries This approach to integration proves seamless logical and easy to use Comparative Politics Judith Bara, Mark Pennington, 2009-03-19 Bara and Pennington s edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis By applying major political science theories to overviews of the core elements of political systems the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation Dr David Howarth University of Edinburgh What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach Professor Wyn Grant University of Warwick Comparative Politics takes a fresh and original approach to the field it examines the role of structures rules and norms in regulating the individual and collective behaviour of political actors Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time Altogether this is a comprehensive and useful read which I warmly recommend Ian Budge Professor Emeritus Professor of Government University of Essex This is a most useful book Teachers of comparative politics often scramble around with out of date textbooks and photocopies of more or less compatible articles Here is a new book that gives an up to date comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions processes and policy areas It will be a great help for many of us academics and students alike Peter Kurrild Klitgaard Professor of Comparative Politics University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level Rich in case study material and global in coverage Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems Part Two examines the institutional structures of the modern state outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states Part Three analyzes the role of key actors such as voters and parties interest groups and social movements the bureaucracy and the judiciary This book will be an essential primer for students on first year courses in comparative government and politics as well as introductory courses in political science concepts and methods Judith Bara is Senior Lecturer in Politics at Queen Mary University of London and Research Fellow in Government University of Essex David S Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds Jocelyn Evans is Reader in Politics at the European Studies Research
