

INTRODUCTION

- Jean Piaget (1896-1980) was one of the 20th century's most influential researchers in the area of developmental psychology.
- He originally trained in the areas of biology and philosophy and considered himself a "genetic epistemologist." (genetic= development, epistemology = study of knowledge)
- Piaget wanted to know how children learned through their development in the study of knowledge.
- Piaget's theory is based on the idea that the developing child builds cognitive structures (schemes used to understand and respond to physical environment).
- He believed the child's cognitive structure increased with development.
- based on his observations of his own three children.

Brief Introduction To Piaget:

A Brief Introduction to Piaget Nathan Isaacs, 2015-04-01 THE GREAT IMPORTANCE of the work of Professor Jean Piaget for child psychology and thus for education has only in recent years been fully recognized This work has gone on for some thirty five years but the sequence of books translated between 1927 and 1932 though very stimulating seemed open to a good many doubts However the volumes published in English during the last decade and others still untranslated have shown beyond question how much Professor Piaget can help us to understand children s intellectual growth We owe to him a striking fresh picture of the child himself as the architect of this growth Piaget s interest lies chiefly in the building up of the basic framework of thought which later the child and we mostly take for granted but that is what makes the new picture so illuminating And from the angle of Infant School teachers it is noteworthy that the period from 4 5 years to 7 8 years turns out to be a specially important one anyway for the average run of children For their biggest step forward in the building of that framework usually falls within this period The present essay will offer a thumbnail sketch of the whole story as Piaget presents it and will then dwell more fully on the happenings of the Infant School phase *Intro To Piaget* Peter Graham Richmond, 1971-05-06
