Front passenger's airbag deactivation

In order to be able to use a rear-facing child seat in the front passenger's seat position, it is imperative to deactivate the passenger's airbag.

For that:

- With the ignition switched off, insert the key into the switch **I**.

- Turn the key to the "**OFF**" position, the passenger's airbag is deactivated.

The front passenger's airbag deactivation warning lamp **G** lights up when the ignition is switched on.

Child safety

This deactivates the controls in the rear of the vehicle, both for the rear windows and for opening the rear doors from the inside. The electric child safety device is activated by pressing on button **J**.

The activation of the function is indicated by a message on the instrument panel screen and the light on button **J**.
