

Breaking Windows

Frank Lees

Breaking Windows:

Broken Windows, Broken Business Michael Levine, 2021-05-11 Now revised and updated this inspired impactful and important book shows how to achieve the ultimate success by rectifying the small problems that can sink a business Stephen R Covey author of *The 7 Habits of Highly Effective People* Once every few years a book comes along with an insight so penetrating so powerful and so simply demonstrably true that it instantly changes the way we think and do business Such a book is *Broken Windows Broken Business* a breakthrough in management theory that can alter the destiny of countless companies striving to stay ahead of their competition In this vital work author Michael Levine offers compelling evidence that problems in business large and small typically stem from inattention to tiny details Social psychologists and criminologists agree that if a window in a building is broken and left unrepaired soon thereafter the rest of the windows will be broken and the perception will build that crime in that neighborhood is out of control The same principle applies to business Drawing on real world corporate examples from JetBlue s decision to give fliers what they really want leather seats personal televisions online ticketing to Google s customer based strategy for breaking out of the pack of Internet search engines to business to business firms successes and failures Levine proves again and again how constant vigilance and an obsession with detail can make or break a business or a brand With tips and advice on changing any business to one that dots its i s crosses its t s and attracts more clients *Broken Windows Broken Business* goes straight to the heart of what makes all enterprises successful the little things that mean a lot

Creating Special Effects for TV and Video Bernard Wilkie, 1996-11-21 This is a concise practical introduction to the techniques used in TV production Now completely updated this 3rd edition covers a wide range of special effects in a simple practical form with clear illustrations photos that support the text **Alliance News**, 1904

Lees' Loss Prevention in the Process Industries Frank Lees, 2005-01-10 Over the last three decades the process industries have grown very rapidly with corresponding increases in the quantities of hazardous materials in process storage or transport Plants have become larger and are often situated in or close to densely populated areas Increased hazard of loss of life or property is continually highlighted with incidents such as Flixborough Bhopal Chernobyl Three Mile Island the Phillips 66 incident and Piper Alpha to name but a few The field of Loss Prevention is and continues to be of supreme importance to countless companies municipalities and governments around the world because of the trend for processing plants to become larger and often be situated in or close to densely populated areas thus increasing the hazard of loss of life or property This book is a detailed guidebook to defending against these and many other hazards It could without exaggeration be referred to as the bible for the process industries This is THE standard reference work for chemical and process engineering safety professionals For years it has been the most complete collection of information on the theory practice design elements equipment regulations and laws covering the field of process safety An entire library of alternative books and cross referencing systems would be needed to replace or improve upon it but everything of importance to safety professionals

engineers and managers can be found in this all encompassing reference instead Frank Lees world renowned work has been fully revised and expanded by a team of leading chemical and process engineers working under the guidance of one of the world s chief experts in this field Sam Mannan is professor of chemical engineering at Texas A principles practice codes standards data and references needed by those practicing in the field
