Bridging Differences Effective Intergroup Communication Interpersonal Communication Texts:

Bridging Differences William B. Gudykunst, 2004 This fourth edition builds on the strengths of the previous editions and provides state of the art knowledge about intergroup communication It brings a strong skills oriented approach to improving communication effectiveness between people from different groups cultures ethnic groups social classes

Conflict Resolution and its Context Davide Carneiro, Paulo Novais, José Neves, 2014-06-02 This book studies how technological solutions can be used to alleviate the current state of legal systems with their clogged up courtrooms and inefficient conflict resolution methods It reviews the shortcomings and disadvantages of traditional and alternative conflict resolution methods and turns to Artificial Intelligence for problem solving techniques and solutions The book is divided into four parts The first part presents a general and systematic analysis of the current state of the legal systems identifying the main problems and their causes It then moves on to present UM Court a framework for testing and prototyping conflict resolution services This framework was developed with the objective of using Artificial Intelligence techniques to build a service environment for conflict resolution The third part of the book takes a step into the future by analyzing the use of Intelligent Environments in the support of conflict management and resolution It describes the approach taken and the experiments performed in the Intelligent Systems Lab of the University of Minho The final part of the book contains the conclusions and shows the potential advantages of the use of Intelligent Environments as a way to implement better conflict resolution procedures virtual or real in which all the participants have access to more and better information and are able to take better informed decisions

Managing Interpersonal Conflict William A. Donohue, Robert Kolt, 1992-07 **Managing Interpersonal Conflict** helps readers better understand and ultimately manage their routine interpersonal conflicts Specifically the book walks readers through the conflict process from the initial decision of whether or not to confront differences to how to plan the actual confrontation Donohue deals extensively with the negotiation process and if negotiation proves unsuccessful with third party dispute resolution The book emphasizes keeping conflicts under control and keeping focused on the issues The key to managing conflict is to address differences collaboratively so parties can create better solutions and ultimately strengthen their relationships **Managing Interpersonal Conflict** prepares and encourages the reader to stop avoiding their conflicts and start confronting them Designed for college and university undergraduates Donohue's text and the **Interpersonal Comtext** series will also interest students and professionals in management studies sociology organization studies and social psychology They provide a very useful look at a somewhat broader than usual range of conflict issues Where the decision is to confront it offers useful approaches to allowing face saving and to issue structuring that will allow the conflict in many cases to be readily resolved The second section provides a useful and easily worked with framework for negotiating and deals most effectively with the use of and responses to the exercise of power in the negotiation context The book is exceptionally readable and effective in its presentation of approaches to conflict While it is

not a traditional academic text periodic references to the conflict literature are used to allow the reader to examine the issues presented in more depth The book will serve as an outstanding text for a training program in conflict management and can also be used by an individual effectively to learn these techniques The Alternative Newsletter

The Next Buddha may be a Community Sabine Krajewski,2011-05-25 The whole world is talking about globalisation and there are so many versions of it that one might as well not talk about it at all The word has permeated all areas of the public sphere and can have negative or positive connotations depending on the context of relevant discourse In education globalisation is associated with mobility of staff and students with internationalization of degrees course content research and with global career opportunities for university graduates High numbers of international students are perceived as an asset to universities around the world in economical political and cultural terms One of the advantages for all students domestic and international is the opportunity to meet people from across the globe and to exchange views and learning styles as well as establishing links for future professional work Universities advertise that graduates will leave their Alma Mater as well rounded interculturally competent people who are ready to be employed in international contexts This book sets out to explore what internationalization in education really looks like In the case study of an Australian university the author investigates the opinions of staff and students in terms of what intercultural competence actually means how it can be achieved and enhanced and if it should be measured This study provides an insight into practical approaches towards internationalization and points out where more support is needed to successfully implement and foster cultural intelligence in educational settings The case study is embedded in discussions about multiculturalism in Australia and elsewhere the importance of foreign languages as part of intercultural competence and the notion of friendship This book will appeal to academics and researchers who are interested in cultural intelligence intercultural competence and how it can be supported in educational settings as well as to everyone who is working in fields where people from different cultural and linguistic backgrounds come together which is just about everywhere in the world
