Cognitive Psychotherapy Toward a New Millennium Tullio Scrimali, Liria Grimaldi, 2012-02-02 In the roughly two decades since Aaron T Beck published the now classic Cognitive Therapy of Depression and Michael J Mahoney declared the Cognitive

Revolution much has happened What was proposed as the cognitive revolution has now become the zeitgeist and Cognitive Therapy CT has grown exponentially with each passing year A treatment model that was once seen as different strange or even alien is now commonplace In fact many people have allied themselves with CT claiming that they have always done CT Even my psychoanalytic colleagues have claimed that they often use CT After all they say Psychoanalysis is a cognitive therapy Cognitive Therapy or Cognitive Psychotherapy has become a kaleidoscope model of treatment with influences coming from many sources Some of these contributory streams have been information processing behavior therapy Constructivist psychology and dynamic psychotherapy Each of these sources have added color shading and depth to the CT model What was originally uni dimensional in terms of the CT focus on depression has become multidimensional as the CT model has been applied to virtually every patient population treatment setting and therapy context CT must now be seen as a general model of psychotherapy that with modifications can be applied to the broad range of clinical problems and syndromes What has tied these various applications of CT together is the emphasis on a strong grounding in cognitive theory a commitment to empirical support and a dedication to broadening the model

Foucault and Aging Jason L. Powell,2006 This book is concerned with demonstrating the relevance and application of Michel Foucault s work to an understanding of human ageing The diverse range of arguments in the book identifies the ways in which ageing has been organised shaped and positioned through both knowledge systems and social processes which impinge on the social construction of ageing Whilst there has been an escalating array of fields influenced by Foucault s work ageing has been under theorised Indeed the wide subject matter of Foucault s scholarly work has developed path breaking yet critical perspectives on psychiatry medicine punishment crime and sexuality The essence of this particular book is that it raises the question of what gerontology as a discipline can learn from Foucauldian approaches This international volume demonstrates that deployment of Foucauldian theory to gerontological contexts has facilitated disruptions and ruptures of both the meta narratives inscribed within gerontology as both discipline and policy and the ontological status of its subjects
