**Conflict** Bill Sanders, Frank Mobus, 2021-06-15 Negotiation is stuck it s time for something new Almost everything is negotiable almost every interaction a negotiation And in no field is this clearer than in business where every day we need to work with others to get things done But when we have real differences is a win win always possible Or must every negotiation be a zero sum game with a winner and a loser Over the last half century these two opposing philosophies have ruled the field the win lose tooth and nail battle plan identified with training guru Chester Karrass and the win win principled creed of Getting to Yes by Harvard s Roger Fisher and William Ury Both were game changers in their day but neither approach fully meets the challenges of today s volatile disruptive ultracompetitive business environment where strategic problem solving is a crucial skill and time is of the essence In Creative Conflict negotiation experts Bill Sanders and Frank Mobus provide something new They use a dynamic dialectical approach to show that negotiations are driven by competition and cooperation at the same time counterintuitively revealing that conflict is at the core of every negotiation When we tiptoe around conflict we negotiate in a half hearted way that limits our results Creative negotiators probe and push until they hit a wall of disagreement then figure out how to get past it The authors construct a simple framework based on three basic but distinct contexts bargaining dealmaking and relationship building They then instruct readers on how to skillfully pursue their own interests while simultaneously seeking ways to expand a deal s scope and value for both sides Based on the popular Mobus Creative Negotiating seminars and the authors experience working with Fortune 500 companies Creative Conflict is a business book written for businesspeople by businesspeople It s your go to guide for boosting your skills and confidence as a negotiator and learning to strike a better deal
