*The Architecture of Neoliberalism* Douglas Spencer, 2016-10-20 The Architecture of Neoliberalism pursues an uncompromising critique of the neoliberal turn in contemporary architecture This book reveals how a self styled parametric and post critical architecture serves mechanisms of control and compliance while promoting itself at the same time as progressive Spencer s incisive analysis of the architecture and writings of figures such as Zaha Hadid Patrik Schumacher Rem Koolhaas and Greg Lynn shows them to be in thrall to the same notions of liberty as are propounded in neoliberal thought Analysing architectural projects in the fields of education consumption and labour The Architecture of Neoliberalism examines the part played by contemporary architecture in refashioning human subjects into the compliant figures student entrepreneurs citizen consumers and team workers requisite to the universal implementation of a form of existence devoted to market imperatives

**Greening the Car Industry** John Mikler, 2009-01-01 fascinating and stimulating book which is both comprehensive and partial in equal degree Peter Wells Journal of Environmental Policy and Planning Greening the Car Industry is an innovative book in the Varieties of Capitalism tradition Its interviews and analysis offer rich insights into why the US car industry struggles particularly on environmental impact compared to Japanese and German firms John Mikler shows that regulatory institutions matter and how they matter For the car industry at least more collaborative forms of capitalism show more promise Mikler gives us a masterpiece of regulatory scholarship John Braithwaite The Australian National University Corporations including those in the car industry are increasingly keen to proclaim their green credentials But what motivates firms to reduce the environmental impact of their products Rather than accepting the conventional wisdom John Mikler addresses this question in a novel way by taking a comparative institutionalist approach informed by the Varieties of Capitalism literature Focusing on Germany the US and Japan the author shows that national variations in capitalist relations of production are central to explaining how the car industry tackles the issue of climate change such variations are crucial for understanding the normative as well as material basis for firms motivations This ground breaking book will be of great benefit to students and academics particularly those with an interest in comparative politics public policy and international political economy It may also serve as a resource for courses on environmental politics and environmental management as well as aspects of international relations and business management Given the book s contemporary policy relevance it will be a valuable reference for policy practitioners with an interest in industry policy multinational corporations the environment and institutional approaches to comparative politics

### **Success Factor:**

**Corporate Culture** Sonja A. Sackmann, 2011-06-27 Do corporate culture and leadership contribute to a firm s success And if so how How can a company create and develop its corporate culture to compete successfully over the long term Answers to these questions emerge in case studies of the business practices of six long established and world renowned companies the BMW Group Deutsche Lufthansa Grundfos Henkel Hilti and Novo Nordisk In a project initiated by the Bertelsmann Stiftung

researchers investigated these firms and analyzed the central characteristics of corporate success from a culture perspective. The case studies render a detailed picture of each firm's distinctive corporate culture and the factors that shape it. Based on these examples, Sonja A. Sackmann has identified concrete strategies and practices that illustrate how a company's management can make a significant contribution toward developing a dialogue-oriented corporate culture that supports a firm's viability. The appendix provides a checklist for readers who want to develop their firm's culture and practice culturally aware management.

**Focus On: 100 Most Popular Sedans** Wikipedia contributors, **Focus On: 100 Most Popular Station Wagons** Wikipedia contributors, **Hidden in Plain Sight** Erich Joachimsthaler, 2007-03-30. Companies must innovate to grow but they often forget to look beyond their own brands. Take Sony for example. Its success with consumer innovations like the Walkman blinded it to obvious changes in how, when, and where people wanted their music. Apple capitalized on those changes in demand with the iPod, providing a new way of listening to music and of managing one's entire music library. This book explains how you can spot these opportunities that are hidden in plain sight. It introduces the demand-first innovation and growth model that will show you how to become an unbiased observer of people's consumption and usage behaviors. Refining this skill helps companies generate organic growth through new products, services, solutions, and experiences that truly enhance people's lives. Revealing the innovative processes of such organizations as BMW, Procter and Gamble, GE Healthcare, and Frito-Lay. **Hidden in Plain Sight** offers you a new approach to identifying and executing your company's growth strategy.

**Indian Trade Journal**, 2006-02. **Company Strategies and Organisational Evolution in the Automotive Sector** Francesco Garibaldi, Andrea Bardi, 2005. This book is published during a phase of crisis and transformation for the automobile industry across the world. This crisis is particularly acute in Europe and the United States. The book is written especially for the non-specialist with more than a passing interest in the sector, such as experts of other sectors, trade unionists, representatives of the corporate world, policymakers, and public managers who deal with industry, commerce, and public planning. The authors provide up-to-date information and assessments of what is actually taking place, with particular attention paid to the sub-supply companies. The main focus lies on four European countries: Germany, Spain, Sweden, and Italy, each of which is significant for its different experiences. Finally, three important non-European situations: the United States, Brazil, and Japan are examined.
