**UPNG Em i Go We?** Paraka M. Pena,1998     Working as Indigenous Archaeologists George Nicholas,Joe Watkins,2024-09-30 Working as Indigenous Archaeologists explores the often contentious relationship between Indigenous and other formerly colonized peoples and Archaeology through their own voices Over the past 35 plus years the once novel field of Indigenous Archaeology has become a relatively familiar part of the archaeological landscape It has been celebrated criticized and analyzed as to its practical and theoretical applications and its political nature No less important are the life stories of its Indigenous practitioners What has brought some of them to become practicing archaeologists or heritage managers What challenges have they faced from both inside and outside their communities And why haven t more pursued Archaeology as a vocation or avocation This volume is a collection of 60 autobiographical chapters by Indigenous archaeologists and heritage specialists from around the world some community based some academic some in other realms who are working to connect past and present in meaningful and especially personal ways As Archaeology continues to evolve there remain strong tensions between an objective science oriented evidentiary based approach to knowing the past and a more subjective relational humanistic approach informed by local values traditional knowledge and holistic perspective While there are no maps for these new territories hearing directly from those Indigenous individuals who have pursued Archaeology reveals the pathways taken Those stories will provide inspiration and confidence for those curious about what lies ahead This is an important volume for anyone interested in the present state and future of the archaeological discipline

The Pacific Islands and the USA R. G. Crocombe,1995 The world s most powerful nation and more than a dozen of the world s smallest have been interacting for 200 years Beginning with whaling in the 1700 s it has continued through many trades investment eduction churches media diplomacy and strategic issues As significant as the movement of Americans to the Pacific is that of 150 000 Pacific Islanders to the USA This important book documents the growing interaction with the USA to the pinnacle of involvement in World War II The importance of USA to the Pacific Islands remained high until the end of the 1980 s but has declined since then on almost every dimension While USA will remain significant for the Pacific Islands its relative profile will continue to decline Back cover **Quality Assurance in Higher Education** David Lim,2020-07-24 This title was first published in 2001 Universities in developing countries have followed their counterparts in developed countries and adopted quality assurance to improve the quality of their activities This text examines the wisdom of such a move when many of the conditions necessary for its success are not present It concludes that quality assurance can be useful in developing countries because it shows how a university s seemingly disparate activities are related to one another to serve a common goal and how the quality of these can best be improved by using an integrated approach Quality assurance also provides more focus and direction to the work of the traditional university system However it must be modified to suit the conditions prevailing in developing countries by being simple in design modest in expectations and realistic in requirements

Post-independence Economic Development of Papua New Guinea P. A. S. Dahanayake,1982 Conference report on the economic development of Papua New Guinea since independence examines economic conditions development policy labour utilization wage policy regional disparity trade policy import substitution monetary policy fiscal policy hard currency strategy foreign exchange balance of payments exports infrastructure development rural development and regional development contains economic indicators Bibliography graphs and statistical tables Conference held in Waigani 1981 **The Rise of Pacific Literature** Matthew Hayward,Maebh Long,2024-09-03 In the 1960s and 1970s the staff and students of two newly founded universities in the Pacific Islands helped foster a golden age of Oceanian literature At the University of Papua New Guinea and the University of the South Pacific bold experiments in curriculum design recentered literary studies around a Pacific modernity Rejecting the established British colonial model writer scholars placed Pacific oratory and a growing body

of Oceanian writing at the heart of the syllabus. From this local core, students ventured outward to contemporary postcolonial literatures where they saw modernist techniques repurposed for a decolonizing world. Only then did they turn to foundational modernist texts encountered at last as a set of creative tools rather than a canon to be copied or learned by rote. *The Rise of Pacific Literature* reveals the transformative role and radical adaptations of global modernisms in this golden age. Maebh Long and Matthew Hayward examine the reading and teaching of Pacific oral narratives, European and American modernisms, and African, Caribbean, and Indian literature, tracing how Oceanian writers appropriated and reworked key texts and techniques. They identify the local innovations and international networks that spurred Pacific literature's golden age by reading crucial works against the poetry, prose, and plays on the syllabi of the new universities. Placing internationally recognized writers such as Albert Wendt, Subramani Konai, Helu Thaman, Marjorie Crocombe, and John Kasaipwalova alongside lesser-known authors of works published in Oceanian little magazines, this book offers a wide-ranging new account of Pacific literary history that tells a fresh story about modernism's global itineraries and transformations.
