## **Being As Communion:**

Being as Communion Jean Zizioulas,1985 In the context of a complete theology which includes extended consideration of the major theological topics the Trinity Christology eschatology ministry and sacrament but above all the Eucharist Zizioulas propounds a fresh understanding based on the early Fathers and the Orthodox tradition of the concept of person and so of the Church itself His consideration of the local church as catholic in the literal sense and the need to understand the universal Church not as a superstructure but as the communion of all Churches provides the program for the ecclesiology of the future *Being as Communion* ,1997 **Being as Communion** Ioannis Zizioulas (metropolita di Pergamo),1985

*Being As Communion* John D. Zizioulas,1985 *Communion and Otherness* John D. Zizioulas,2010-07-15 Communion and otherness how can these be reconciled In this wide ranging study the distinguished Orthodox theologian Metropolitan John Zizioulas of Pergamon seeks to answer that question In his celebrated book *Being as Communion* 1985 he emphasised the importance of communion for life and for unity In this important companion volume he now explores the complementary fact that communion is the basis for true otherness and identity With a constant awareness of the deepest existential questions of today Metropolitan John probes the Christian tradition and highlights the existential concerns that already underlay the writings of the Greek fathers and the definitions of the early ecumenical councils In a vigorous and challenging way he defends the freedom to be other as an intrinsic characteristic of personhood fulfilled only in communion After a major opening chapter on the ontology of otherness written specially for this volume the theme is systematically developed with reference to the Trinity Christology anthropology and ecclesiology Another new chapter defends the idea that the Father is cause of the Trinity as taught by the Cappadocian fathers and replies to criticisms of this view The final chapter responds to the customary separation of ecclesiology from mysticism and strongly favours a mystical understanding of the body of Christ as a whole Other papers previously published but some not easily obtainable are all revised for their inclusion here This is a further contribution to dialogue on some of the most vital issues for theology and the Church from one of the leading figures in modern ecumenism *How To Read T. F. Torrance* Elmer M. Colyer,2007-12-01 Thomas F Torrance is regarded as one of the foremost Reformed theologians of the second half of the twentieth century He taught for thirty years at New College University of Edinburgh Scotland until his retirement in 1979 He has written extensively contributing more than twenty major works of theology and hundreds of articles in a variety of languages In this book Elmer Colyer provides access to Torrance s voluminous writings Demonstrating the profoundly trinitarian and evangelical spirit of Torrance s theology Colyer also captures his concern to formulate a renewed theological method in the tradition of Athanasius Colyer helps us see how in Torrance s view and practice a truly scientific approach must be godly in order to be accurate and faithful **A complete Body of practical Divinity; being a new improvement of the Assembly's Catechism ...
