Milton, Rights and Liberties Neil Forsyth, 2007 On July 14th 1790 a key figure in the French Revolution honoured Milton as a founding father of the French republic In the light of this connection it was appropriate that the 8th International Milton Symposium 7-11 June 2005 was held in Grenoble cradle of the French Revolution But the connection of Milton and Rights takes us well beyond the specific link with France and the fascinating selection of essays assembled in this volume many by leading Milton scholars addresses the question in the poetry as well as the prose Milton's fervent but changing attitude to liberties is debated from various points of view so that the volume contains essays on topics ranging from the musical adaptations of Samson Agonistes to its angrily argued parallel with contemporary terrorism from air pollution in Paradise Lost to Milton's supposed Puritanism and putative parallels with a French pornographer

Multicultural Picturebooks Sylvia S. Marantz, Kenneth A. Marantz, 2005 Picturebook spelled as a single word to identify its unique qualities and to differentiate the genre from other books with illustrations is one that tells a story either in pictures alone or in almost equal partnership with text The picturebook has great potential for bridging the differences among us the concept of a story is one common to all a shared experience that sets the stage for communication And the goal of multiculturalism is to emphasize the positive attributes of human society the outstanding rather than the stereotype Because children born today will interact with people from different cultures much more than previous generations it is important that they are taught about other cultures starting at a young age Multicultural picturebooks are therefore an excellent teaching tool for meeting this educational challenge The picturebooks profiled are appropriate for children in grades K-4 but can be used with older children depending on the curriculum and the students' comprehension level Books covering Asia and the Pacific The Middle East Africa South America North America Native Americas Inuit etc and books specific to the immigrant experience are profiled Each book is described in one paragraph that includes an engaging review of the story line special features of the content the look and style of the artwork interior design and layout of the book The authors emphasize that the visual qualities of picturebooks affect their ability to tell stories about people whose values and behaviors are different from those of the reader The analyses therefore used in selecting the books include not only the informational content but also the emotional content the feelings generated by the text and art In choosing books for this volume the authors have used the following criteria Does the book tell an engaging story Do the illustrations convincingly portray and represent humans animals and objects Is the use of the media consistent Do the text and the picture

Cyril of Alexandria's Trinitarian Theology of Scripture Matthew R. Crawford, 2014-08-28 More exegetical literature survives from the hand of Cyril of Alexandria than nearly any other Greek

patristic author yet this sizable body of work has scarcely received the degree of attention it deserves In this work Matthew R Crawford reconstructs the intellectual context that gave rise to this literary output and highlights Cyril s Trinitarian theology received as an inheritance from the fourth century as the most important defining factor Cyril s appropriation of pro Nicene Trinitarianism is evident in both of his theology of revelation and his theology of exegesis the two foci that comprise his doctrine of Scripture Revelation in his understanding proceeds from the Father through the Son and in the Spirit following the order of Trinitarian relations Moreover this pattern applies to the inspiration of Scripture as well insofar as inspiration occurs when the Son indwells human authors by the Spirit and speaks the words of the Father Although Cyril s interpretation of revelation may consequently be called Trinitarian it is also resolutely Christological since the divine and incarnate Son functions as the central content and mediator of all divine unveiling Corresponding to this divine movement towards humanity in revelation is humanity s appropriation of divine life according to the reverse pattern in the Spirit through the Son unto the Father Applied to exegesis this Trinitarian pattern implies that the Spirit directs the reader of Scripture to a Christological interpretation of the text through which the believer beholds the incarnate Son the exemplar of virtue and the perfect image of the Father and accordingly advances in both virtue and knowledge This process continues until the final eschatological vision when the types and riddles of Scripture will be done away with in light of the overwhelming clarity of the Christologically mediated Trinitarian vision

What Else Is Pastoral? Ken Hiltner,2011-03-18 Pastoral was one of the most popular literary forms of early modern England Inspired by classical and Italian Renaissance antecedents writers from Ben Jonson to John Beaumont and Abraham Cowley wrote in idealized terms about the English countryside It is often argued that the Renaissance pastoral was a highly figurative mode of writing that had more to do with culture and politics than with the actual countryside of England For decades now literary criticism has had it that in pastoral verse hills and crags and moors were extolled for their metaphoric worth rather than for their own qualities In What Else Is Pastoral Ken Hiltner takes a fresh look at pastoral offering an environmentally minded reading that reconnects the poems with literal landscapes not just figurative ones Considering the pastoral in literature from Virgil and Petrarch to Jonson and Milton Hiltner proposes a new ecocritical approach to these texts We only become truly aware of our environment he explains when its survival is threatened As London expanded rapidly during the sixteenth and seventeenth centuries the city and surrounding rural landscapes began to look markedly different Hiltner finds that Renaissance writers were acutely aware that the countryside they had known was being lost to air pollution deforestation and changing patterns of land use their works suggest this new absence of nature through their appreciation for the scraps that remained in memory or in fact A much needed corrective to the prevailing interpretation of pastoral poetry What Else Is Pastoral shows the value of reading literature with an ecological eye
