Belief Or Nonbelief:

Belief or Nonbelief? Umberto Eco, Carlo Maria Martini, 2001-04-16 Umberto Eco is a famous scholar novelist and Cardinal Martini is a famous scholar bishop Eco is an urbane ex Catholic Cardinal Martini is an urbane prince of the Church Belief or Nonbelief a little book of eight chapters is a dialogue between them first published by an Italian newspaper Each author writes four alternating chapters addressing the hopes of humanity at the dawn of a new millennium the question of the beginning of human life the role of the Church and how we can know Truth Belief or Non Belief is a good idea but it suffers from a couple of problems The format and content are too obviously recycled newspaper articles While the engaging popular style is welcome the necessary brevity of each chapter means arguments cannot be developed and the reader is left vaguely dissatisfied It would have been better if the authors had expanded the project Both men write well in a sophisticated and polite Italian style that is entertaining at first but it soon sounds artificial to the English reader Finally there are some difficulties in translation for example illumination is used instead of enlightenment and layman is consistently used where non Catholic is probably intended Despite these criticisms Belief or Nonbelief is a sharp little book giving a fresh perspective on age old questions Dwight Longenecker

Between Belief and Unbelief Paul W. Pruyser, 1974 First a scholarly work on such a hot theme as belief and unbelief requires considerable personal involvement and existential engagement on the part of the writer My ambition to do an honest scientific job on the topic required objectivity and faithfulness to the observations that form the starting point of conceptual inquiry and systematization My ambition to be at the same time a clinician which I am by profession imposed a special selectivity a penchant for reasoning within a useful pragmatic theoretical framework which lacks tightness and elegance but is clinically fascinating because of its hospitality to the messy details of life and a proneness to seeing the conflictual origins and elements in many situations which may appear pure and simple to a layman In addition there is something in the very nature of belief disbelief and unbelief that is likely to make the student a participant at some level in the material with which he deals

Belief Or Nonbelief: A Confrontation ,2012 One is the beloved author of *The name of the rose* a celebrated scholar philosopher and self declared secularist the other is a preeminent clergyman and a respected expert on the New Testament In this intellectually stimulating dialogue these two great men who stand on opposite sides of the church door discuss some of the most controversial issues of our day the apocalypse abortion women in the clergy and ethics Their enlightened spirited exchange will resonate with believers and nonbelievers alike

surrounding self deception While many articles and books have been written on the concept of self deception in recent years Martin s gives much greater emphasis to self deception as a significant topic for both ethical theory and applied ethics Self deception is perplexing from a moral point of view It seems tailor made to camouflage and foster immorality Does all self deception involve some guilt and is it among the most abhorrent evils as some moralists and theologians have charged Or is it only wrong sometimes such as when it has bad consequences Could it on occasion be permissible or even desirable to deceive ourselves just as we are sometimes justified in deceiving other people Are self deceivers perhaps more like innocent victims than perpetrators of deceit and as such deserving of compassion and help Or paradoxically are they best viewed with ambivalence culpable as deceivers and simultaneously innocent as victims of deception from the introduction Martin develops a conception of self deception as the purposeful evasion of acknowledging to oneself truths or one s view of truth He details a systematic framework for understanding the main moral perspectives and traditions concerning self deception that have emerged in western philosophy In so doing he clarifies related concepts like sincerity authenticity honesty hypocrisy weakness of will and self understanding Ranging across traditions both philosophical Kant Kierkegaard and Sartre and non philosophical Freud Eugene O Neill and Henrik Ibsen Martin shows why self deception is as morally complex as any other major form of behavior The appeal of this book is broad The volume will challenge professional philosophers and psychologists yet it is organized and written to be accessible to students in courses on ethics philosophy of mind and philosophy of literature Martin s numerous literary examples should also interest literary critics The Humanitarian
