Benedictus, Studies in Honor of St Benedict of Nursia Ellen Rozanne Elder, 1981 [The Holy Rule of St.](#)

Benedict Benedict of Nursia, 2017-08-19 Benedict of Nursia 2 March 480 543 or 547 AD is a Christian saint who is venerated in the Eastern Orthodox Churches the Catholic Church the Oriental Orthodox Churches the Anglican Communion and Old Catholic Churches He is a patron saint of Europe Benedict founded twelve communities for monks at Subiaco Lazio Italy about 40 miles 64 km to the east of Rome before moving to Monte Cassino in the mountains of southern Italy The Order of Saint Benedict is of later origin and moreover not an order as commonly understood but merely a confederation of autonomous congregations *The Life of St. Benedict--Gregory the Great* Adalbert de Vogüé, 1993 Preeminent monastic scholar Adalbert de Vogue analyzes and comments on Book II of the Dialogues of Pope Saint Gregory the Great the Life of Saint Benedict Father of Western monasticism and Patron of Europe Full of wisdom insight and refreshing anecdotes

Saint Benedict Frances Alice Forbes, 1921 **The Life and Miracles of St Benedict** St Gregory the Great, 2016-03-29 Excerpt THERE was a man of venerable life Benedict by name and grace who from the time of his very childhood carried the heart of an old man His demeanour indeed surpassing his age he gave himself no disport or pleasure but living here upon earth he despised the world with all the glory thereof at such time as he might have most freely enjoyed it He was born in the province of Nursia of honourable parentage and sent to Rome to study the liberal sciences But when he saw there many through the uneven paths of vice run headlong to their own ruin he drew back his foot but new set in the world lest in the search of human knowledge he might also fall into the same dangerous precipice Contemning therefore learning and studies and abandoning his father s house and goods he desired only to please God in a virtuous life Therefore he departed skilfully ignorant and wisely unlearned I have not attained unto all this man did but the few things which I here setdown were related to me by four of his disciples namely Constantine a very reverend man who succeeded him in the government of the Monastery Valentinian who for many years bore rule in the Monastery of Lateran Simplicius who was the third superior of that congregation after him and Honoratus who yet governeth the Monastery which he first inhabited CHAPTER I Benedict having now left the schools resolved to betake himself to the desert accompanied only by his nurse who most tenderly loved him Coming therefore to a place called Affile and remaining for some time in the Church of St Peter by the charitable invitement of many virtuous people who lived there for devotion so it chanced that his nurse borrowed of a neighbour a sieve to cleanse wheat which being left carelessly upon the table was found broken in two pieces Therefore on her return finding it broke she began to weep bitterly because it was only lent her But the religious and pious boy Benedict seeing his nurse lament was moved with compassion and taking with him the two pieces of the broken sieve with tears he gave himself to prayer which no sooner ended but he found the sieve whole and found not any sign that it had been broken Then presently he restored the sieve which had been broken whole to his nurse to her exceeding comfort This matter was divulged unto all that lived thereabout and so much admired by all that the inhabitants of that place caused the sieve to be hanged up in the Church porch that not only those present but all posterity might know with how great gifts of grace

Benedict had been endowed from the beginning of his conversion The sieve remained to be seen for many years after and hung over the Church door even until the times of the Longobards But Benedict more desirous to suffer afflictions than covetous of praise and rather willing to undergo labours for the honour of God than to be extolled with the favours of this world fled secretly from his nurse to a remote place in the desert called Subiaco distant about forty miles from Rome in which a fountain springing with cool and crystal waters extendeth itself at first into a broad lake and running farther with increase of waters becometh at the last a river

[An Analysis of St. Benedict's The Rule of St. Benedict](#) Benjamin Laird,2017-07-05 The Rule of St Benedict written around 1500 years ago by the Italian monk St Benedict of Nursia is a slim handbook for monastic life a subject many modern readers would regard as relatively niche It is however also a model of the organized and clearly expressed thought produced by good reasoning skills a mainstay of critical thinking Reasoning is all about making a good case for something through logical arguments neatly and systematically organised In Benedict s case his main concern was to lay out a set of rules and practices that would allow monasteries to run as well organised communities Communal living presented huge challenges and yet it was also Benedict believed the best way for monks to sustain themselves their religion and the learning and teaching that went with it His Rule laid out concise but detailed chapters on the best way to achieve this including provisions for all areas of personal and communal discipline right down to how tasks might be allotted to individual monks Providing a complete roadmap for successfully running a community the concise brilliance of The Rule has even been suggested by some business professors as useful model for running small businesses today
