**Anglo-Saxon England: Volume 27** Malcolm Godden, Michael Lapidge, Simon Keynes, 1999-03-04 The discovery in Sonderhausen of a fragmentary psalter glossed in Latin and Old English allows fresh inferences to be drawn regarding the study of the psalter in Anglo Saxon England and of the transmission of the corpus of vernacular psalter glosses A detailed textual and palaeographical study of the Wearmouth Jarrow bibles leads to the exciting possibility that the hand of Bede can be identified annotating the text of the Bible which he no doubt played an instrumental role in establishing Two Latin texts from the circle of Archbishop Wulfstan are published here in full whilst disciplined philological and historical analysis helps to clarify a puzzling reference in the law code to the early medieval practice of providing food render for the king Finally the volume contains two pioneering essays in the history of mentalities The usual comprehensive bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book [The Oxford History of Life-Writing: Volume 1. The Middle Ages](#) Karen A. Winstead, 2018-04-05 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing from late Antiquity to the threshold of the Renaissance During the Middle Ages writers from Bede to Chaucer were thinking about life and experimenting with ways to translate lives their own and others into literature Their subjects included career religious saints celebrities visionaries pilgrims princes philosophers poets and even a few ordinary people They relay life stories not only in chronological narratives but also in debates dialogues visions and letters Many medieval biographers relied on the reader's trust in their authority but some espoused standards of evidence that seem distinctly modern drawing on reliable written sources interviewing eyewitnesses and cross checking their facts wherever possible Others still professed allegiance to evidence but nonetheless freely embellished and invented not only events and dialogue but the sources to support them The first book devoted to life writing in medieval England The Oxford History of Life Writing Volume 1 The Middle Ages covers major life stories in Old and Middle English Latin and French along with such Continental classics as the letters of Abelard and Heloise and the autobiographical Vision of Christine de Pizan In addition to the life stories of historical figures it treats accounts of fictional heroes from

Beowulf to King Arthur to Queen Katherine of Alexandria which show medieval authors experimenting with adapting and expanding the conventions of life writing Though Medieval life writings can be challenging to read we encounter in them the antecedents of many of our own diverse biographical forms tabloid lives literary lives brief lives revisionist lives lives of political figures memoirs fictional lives and psychologically oriented accounts that register the inner lives of their subjects
