

The Cooperative Commonwealth

- *The Cooperative Commonwealth* – first book to popularize socialist ideas for an American audience
 - Socialism – the belief that private control of economic enterprises should be replaced by government ownership in order to ensure a fairer distribution of the benefits of the wealth produced
- United States – where access to private property was widely considered essential to individual freedom, socialist beliefs were largely confined to immigrants
 - began the process of socialism's Americanization – Karl Marx – predicted that socialism would come into being via a working-class revolution
- Gronlund – peaceful evolution, not violent upheaval
 - made socialism seem more acceptable to middle-class Americans who desired an end to class conflict and the restoration of social harmony
