

# Introduction

- Commercial law is that part of private law which governs commercial acts and regulates merchant's activities.
- Compared with civil law, commercial law **is a specific law with limited scope of application**. While civil law applies to all relations between private persons and can justifiably be considered as the heart of private law, and the common law with regard to all private transactions, commercial law, on the other hand, has only a limited sphere of application, restricted to merchants and commercial acts.
