An Introduction To Mysticism:

An Introduction to the Study of Mysticism Richard H. Jones, 2021-12-01 2022 CHOICE Outstanding Academic Title
The purpose of this book is to fill a gap in contemporary mystical studies an overview of the basic ways to approach mystical experiences and mysticism It discusses the problem of definitions of mystical experiences and mysticism and advances characterizations of mystical experiences in terms of certain altered states of consciousness and mysticism in terms of encompassing ways of life centered on such experiences and states Types of mystical experiences enlightened states paths and doctrines are discussed as is the relation of mystical experiences and mysticism to religions and cultures The approaches of constructivism contextualism essentialism and perennialism are presented Themes in the history of the world s major mystical traditions are set forth Approaches to mystical phenomena in sociology psychology gender studies and neuroscience are introduced Basic philosophical issues related to whether mystical experiences are veridical and mystical claims valid mystics problems of language art and morality are laid out Older and newer comparative approaches in religious studies and in Christian theology are discussed along with postmodernist objections The intended audience is undergraduates and the general public interested in the general issues related to mysticism *Christian Mysticism* Louise Nelstrop, Kevin Magill, 2016-05-23 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an important Christian heritage relevant to today s spiritual seekers The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James Steven Katz Bernard McGinn Michael Sells Denys Turner and Caroline Walker Bynum It also explores postmodern re readings of Christian mysticism by authors such as Jacques Derrida Jean Luc Marion and Jean Fran ois Lyotard The book first introduces students to the main themes that underpin Christian mysticism It then reflects on how modern critics have understood each of them demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism In doing so the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of scholarship with which students of mysticism need to familiarise themselves This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition **An Introduction to Mysticism** Margaret Smith, 1977 **An Introduction to Mysticism** Margaret Smith, 1930 **An Introduction to Mysticism (1st Pub as An Introduction to the History of Mysticism).** M. Mysticism Jason M. Baxter,2021-03-16 This brief accessibly written volume introduces key figures texts and themes of the mystical tradition and shows how and why the mystics can speak to the church today Jason Baxter an expert educator and storyteller explains that the mystical tradition offers a more robust understanding of God than our current shallow conceptions Featuring engagement with primary sources and suitable for use in a variety of courses this book argues that the mystics have much to say to contemporary Christians searching for authentic modes of spirituality *Introduction to the Medieval Mystics of Europe* Paul E. Szarmach,1985-06-30 The European Middle Ages bequeathed to the world a legacy of spiritual and intellectual brilliance that has shaped many of the ideals preconceptions and institutions we now take for granted An Introduction to the Medieval Mystics of Europe examines this phenomenon in vivid and scholarly accounts of the lives and achievements of those men and women whose genius most inspired their own and subsequent ages These great mystics explored and consciously realized the relationship between human life and unconditioned transcendence Representing both the contemplative and scholastic traditions the mystics in these studies often found their solutions to ultimate questions in radically different ways Some of them such as Eckhart Aquinas and Cusa may already be familiar and here the reader will benefit from a new approach and summary of extensive research Others such as Smaragdus and several of the women mystics are little known even to specialists Finally and unusually for a study of European mysticism the influence of Spanish Kabbalists is discussed in relation to the Zohar and two figures from the mystical school of Safed Cordovero and Luria Though the essays focus on individuals the cultural and social implications of their lives and work are never ignored for the mystic way did not exist separately from the rest of medieval life it functioned as an integral part of the whole influencing the development of Christian and Jewish religions in both their internal and external forms *An Introduction to Christian Mysticism* Thomas Merton,2008 In these conferences dating to 1961 Thomas Merton provides for his audience of young monks an overview of major themes and figures in the Christian mystical tradition as an integral part of their religious inheritance and a crucial part of their spiritual formation From Fathers of the Church such as St Athanasius and St Gregory of Nyssa through such important medieval theologians as St Bonaventure Hadewijch and Meister Eckhart to the great Spanish Carmelites St Teresa of Avila and St John of the Cross Merton traces such key topics as the integration of theology and spirituality the importance of natural contemplation recognizing the divine presence in creation the centrality of apophatic or dark contemplation and the role of spiritual direction in forming mature and balanced contemplatives **An Introduction to the Mystical Life** P.
