History from Loss Marnie

Hughes-Warrington, Daniel Woolf, 2023-05-31 History from Loss challenges the common thought that history is written by the winners and explores how history makers in different times and places across the globe have written histories from loss even when this has come at the threat to their own safety A distinguished group of historians from around the globe offer an introduction to different history makers lives and ideas and important extracts from their works which highlight various meanings of loss from physical ailments to social ostracism exile to imprisonment and from dispossession to potential execution Throughout the volume consideration of the information bubbles of different times and places helps to show how information has been weaponized to cause harm In this way the text helps to put current debates about the biases and weaponization of platforms such as social media into global and historical perspectives In combination the chapters build a picture of history from loss which is global sustained and anything but a simple mirror of history made by victors The volume also includes an Introduction and Afterword which draw out the key meanings of history from loss and which offer ideas for further exploration History from Loss provides an invaluable resource for students teachers and general readers who wish to put current debates on bias the politicization of history and threats to history makers into global and historical perspectives The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

In [God's Patience and our Work](#) Ben Fulford argues that Hans Frei's theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei's project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper contextual reading of his work **A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the**
