An Unholy Alliance:

The History of the Standard Oil Company Ida Minerva Tarbell, 1904 *Theologies of Power and Crisis* Stephen Pavey, 2011-07-01 *Theologies of Power and Crisis* provides a case study for Eric Wolf's research directive to better comprehend the interplay of cultural webs of meaning and material webs of power forms of social life More specifically the book demonstrates how theological discourse and practice engage with historical and material relations of power It has been normative to speak of power in terms of political and economic processes and theology in terms of interpretive and symbolic experiences This work breaks new ground by linking theological ideas with political economic processes in terms of the structural relations of power Ethnographically this research investigates the theological processes of Hong Kong Chinese Christians during a period of significant social change and crisis precipitated by the return of Hong Kong to China in 1997 It shows how local Christians and Christian institutions mediated the significant regional national and transnational forces of political economic change by connecting theological practice to the structural relations of power The Christian response was a contested process closely intertwined with the broader contested processes of social organization This study develops an understanding of Christianity that goes beyond ecclesiastical hegemony to encompass struggles over human practice meaning and representation in relation to the changing political economic context These findings implicate religious ideas and practice as significant to an understanding of social inequalities and powerlessness by connecting ideologies to material conditions Christian ideas may be used to legitimize an oppressive social order or they may be used to liberate those who are oppressed Issues related to the policies and practice of development should take seriously the role of religious beliefs and practices

An Unholy Alliance Robert J. Higgs, Michael Braswell, 2004 *An Unholy Alliance* offers a dissenting view to the claim by a growing number of scholars that Sports are a new religion The last few years have seen a spate of books that might be classified by a genre called Sports Apologetics that is arguments defending or celebrating in one way or another the familiar and ongoing alliance in America between sports and religion Recently claims have been made by scholars that sports are an authentic religion in and of themselves They make this startling assertion not by showing connections with the teachings of Buddha Jesus Mohammed or Moses but by parallels between the rites of modern games and those of preliterate man that were religious in nature because they were designed to propitiate powers and to ward off evil for the tribes employing them In this evocative book Higgs and Braswell suggest that while sports may often be good things they are not inherently divine They do not focus on wide spread abuse in sports as evidence for their counterargument Rather they question the use of mythological parallels from prehistory as justification for viewing sports as a religion Hearings United States. Is Your Christianity Working? Billy Prewitt, 2019-12-07 Have you ever wondered why some Christians seem to be so unsuccessful in their Christian walk Maybe you have had your own difficulties This little booklet briefly examines four reasons why many people struggle *Is Your Christianity Working* is a short booklet that

examines a question that I have pondered for a number of years I often wondered why so many people who profess to be believers struggle in their faith In my search for answers to this subject I have found four distinct realities that can account for many of the problems that assail believers The booklet is divided into four short chapters that are based on these realities in the form of questions 1 Are You Really Saved 2 Are You a Backslider 3 Have You Made an Unholy Alliance 4 Do You Have a Stronghold Obviously if you or someone you know has fallen victim to any of these the result is a weak faith at best and a delusion of security at worst While this little booklet is not meant to cover everything it is my hope that it will at least shed the light of truth enough to start the needful changes If any of these apply to you take action today

The Clyffards of Clyffe James Payn,1871 *Defining Democracy* Peter Emerson,2011-12-03 Defining Democracy looks both at the theory of why and the history of how different voting procedures have come to be used or not as the case may be in the three fields of democratic structures firstly in decision making both in society at large and in the elected chamber secondly in elections to and within those chambers and thirdly in the various forms of governance from no party to multi party and all party which have emerged as a result
