Analogy Challenge (7th to 9th)

Analogy—a word puzzle that you solve by figuring out the relationship between one pair of words to complete a second pair having the same relationship.

Example: hungry : famished :: evil : *despicable*

These words are synonyms—hungry and famished. So, the analogy is completed with a word that is a synonym for evil. Notice that famished is *really* hungry, just like despicable is *really* evil.

Remember that analogies show many types of relationships. The first step is to figure out the relationship between the first two words: are they synonyms, antonyms, parts and wholes? This will help you think about the relationship you need to show between the second pair of words.

Exercise:

Choose the answer that best completes the analogy.

Hochschild, 2010 A reassessment of Cajetan's work on analogy is long overdue As Joshua Hochschild shows Cajetan's admirable and lucid little treatise on the topic deserves to be understood in its own right Hochschild presents it to us convincingly as a treatise in which Cajetan focuses on a properly semantic question regarding the need for some common ratio in syllogistic reasoning if such reasoning is to be saved from fallacies of equivocation Philip L Reynolds Candler School of Theology Emory University **The Methodist Quarterly Review**, 1929 *The Proceedings of the Colorado Scientific Society* Colorado Scientific Society, 1893 *A Treatise on the Military Law of the United States* George Breckenridge Davis, 1913 **Clarifying Public Controversy** Fred M.
